संदेश

शिक्षा केवल पुस्तकों तक सीमित ज्ञान नहीं है; यह स्वयं को पहचानने, अपने विचारों को विस्तार देने और जीवन की चुनौतियों का आत्मविश्वास से सामना करने की सतत यात्रा है। केन्द्रीय विद्यालय संगठन का सदैव यह प्रयास रहा है कि प्रत्येक विद्यार्थी के लिए ऐसा शिक्षण वातावरण हो, जहाँ जिज्ञासा को प्रोत्साहन मिले, सीखना आनंददायी बने और प्रत्येक बालक अपनी अंतर्निहित क्षमताओं को पहचानकर उन्हें विकसित कर सके।

राष्ट्रीय शिक्षा नीति 2020 ने शिक्षा को सिर्फ रटने से समझने, सूचना से ज्ञान और ज्ञान से जीवनोपयोगी दक्षताओं की ओर अग्रसर किया है। आज का समय कृत्रिम बुद्धिमत्ता (Artificial Intelligence – AI), डिजिटल नवाचार और निरंतर बदलती तकनीकों का है। ऐसे युग में केवल तथ्यों का ज्ञान पर्याप्त नहीं है; आवश्यक है कि विद्यार्थी मनन-चिंतन करना सीखें, प्रश्न पूछें, समस्याओं का समाधान खोजें और नए विचारों के साथ आगे बढ़ें। यही क्षमताएँ उन्हें भविष्य के लिए तैयार करेंगी।

इन्हीं उद्देश्यों को ध्यान में रखते हुए केन्द्रीय विद्यालय संगठन के पाँचों आंचलिक शिक्षा एवं प्रशिक्षण संस्थानों (ZIETs) के माध्यम से, समर्पित एवं अनुभवी शिक्षकों द्वारा कक्षा 9 से 12 के विद्यार्थियों के लिए यह विद्यार्थी सहायक सामग्री तैयार की गई है। यह केवल परीक्षा की तैयारी की संकलन सामग्री नहीं है, बल्कि विषयों को सरलता से समझने, अवधारणाओं को स्पष्ट करने, नियमित अभ्यास करने और आत्मविश्वास के साथ आगे बढ़ने का एक विश्वसनीय साथी है।

इस सामग्री में विषय-वस्तु को विद्यार्थियों की आवश्यकताओं के अनुरूप सरल, व्यवस्थित एवं दक्षता-आधारित दृष्टिकोण से प्रस्तुत किया गया है। मुझे प्रसन्नता है कि इसे हमारे शिक्षकों के अनुभव, नवाचार और विद्यार्थियों के प्रति उनकी प्रतिबद्धता ने समृद्ध बनाया है। मुझे विश्वास है कि यह सामग्री विद्यार्थियों की सीखने की यात्रा को अधिक सहज, रोचक और प्रभावी बनाएगी तथा उन्हें बोर्ड परीक्षाओं के साथ-साथ जीवन की व्यापक चुनौतियों के लिए भी तैयार करेगी।

मेरा विश्वास है कि जब एक जिज्ञासु विद्यार्थी, प्रेरित शिक्षक और सार्थक शिक्षण संसाधन एक साथ आते हैं, तब शिक्षा केवल उपलब्धि का माध्यम नहीं रहती, बल्कि व्यक्तित्व निर्माण की एक सशक्त प्रक्रिया बन जाती है। यही भावना इस विद्यार्थी सहायक सामग्री के केंद्र में है।

मेरी हार्दिक शुभकामनाएँ हैं कि आप सभी सीखने की इस यात्रा में निरंतर आगे बढ़ें, अपने सपनों को नए आयाम दें और ज्ञान, संवेदनशीलता तथा नवाचार के साथ राष्ट्र निर्माण में अपना महत्वपूर्ण योगदान दें।

शुभकामनाओं सहित।

CHAPTER 1

THE RISE OF NATIONALISM IN EUROPE

Topic	Summary	Key Fact/Date
Sorrieu's Vision	Artist visualized a world of democratic and social republics.	1848
French Revolution	Created a collective national identity and ended the absolute monarchy.	1789
Napoleonic Code	Established equality before the law and abolished feudal privileges.	1804
Liberalism	Stood for individual freedom, equality, and free markets.	Mid-18th Century
Zollverein	Customs union formed by Prussia that abolished internal trade barriers.	1834
Treaty of Vienna	Conservative powers met to restore old monarchies after Napoleon's defeat.	1815
Revolutionaries	Secret societies formed by liberals like Mazzini to fight for republics.	Post-1815
Age of Revolutions	Period of widespread liberal revolts, including Greek independence.	1830 – 1848
Romanticism	Cultural movement that used art and poetry to build national sentiment.	19th Century
Frankfurt Parliament	Failed attempt by middle-class liberals to create a unified Germany.	1848
German Unification	Unified by Otto von Bismarck using the Prussian army and bureaucracy.	1871
Italian Unification	Unified under Sardinia-Piedmont by Cavour, Garibaldi, and King Victor Emmanuel II.	1861
Britain Case	Gradual process where English dominance suppressed Scottish and Irish cultures.	Act of Union (1707)
Allegories	Female figures used to represent nations (Marianne for France, Germania for Germany).	19th Century
Balkan Crisis	Intense ethnic and superpower rivalries in the Balkans triggered WWI.	1914

In 1848, Frederic Sorrieu, a French artist, prepared a series of four prints visualising his dream of a world made up of 'democratic and social republics'. The first print of the series shows the people of Europe and America- Men and women of all ages and social classes- marching in a long train, and offering homage to the state of liberty as they pass by it.

The French Revolution and the Idea of the Nation: -

Napoleon Code (The Civil Code of 1804):-

-  Established equality before the law and secured the right to property.
-  Finished all the privileges based on birth.
-  Abolished the feudal system and freed peasants from serfdom and manorial dues.
-  Peasants, artisans, workers, and new businessmen enjoyed new-found freedom.

THE MAKING OF NATIONALISM IN EUROPE: A JOURNEY TO NATION-STATES

DIVISION OF EUROPE:

Pre-Mid-18th Century

- Autocratic Monarchs Rule
- No Collective Identity
- No Dissent Tolerated

Small kingdoms ruled by monarchs.
No shared identity or culture.

SOCIAL STRUCTURE:

The Aristocracy &
New Middle Class

Landed Aristocracy dominant,
speak French.
Peasant majority.

Commercial, or Middle Class
emerges.

Middle Class seeks to end privileges.

Key groups: Landed Nobles, Urban
Middle Class, Rural Peasants.

LIBERAL NATIONALISM:

The Struggle for Freedom

LIBERALISM

(from Latin 'liber' - free)

CONCEPTS:

- Freedom of the individual
- Equality before law

- Government by consent
- Universal Suffrage
- Freedom of Market

A NEW CONSERVATISM:

After 1815

**Spirit of
Conservatism**

- Driven by monarchy, Church,
traditions, and property.

KEY CONCEPTS:

- Church
- Monarchy
- Social Hierarchies

A TRANSFORMATION TOWARDS MODERN EUROPE

VIENNA CONGRESS OF 1815: -

The Romantic imagination and national feeling: -

Culture, art, poetry, stories and music helped to express and shape nationalist feelings.

German Philosopher Johann Gottfried Herder claimed that true German culture was to be discovered among the common people.

The true spirit of the nation was popularized through folk songs, folk poetry and folk dances.

Language too play an important role in developing nationalist sentiments.

Unification of Italy:-

Italy was divided into seven states. Only one Sardinia-Piedmont, was ruled by an Italian princely house.

Giuseppe Mazzini formed a secret society Young Italy for his goals.

After the failure of the revolutions, Victor Emmanuel II led Sardinia-Piedmont to unify Italy through war.

Chief Minister Cavour led the movement to unify the regions of Italy. He spoke French much better than Italian.

Giuseppe Garibaldi joined the war with a large number of armed (Red shirt) volunteers.

In 1861 Victor Emmanuel II was proclaimed king of united Italy.

Unification of Germany

Led by **Prussia** under **Otto von Bismarck**.

Prussia defeat **Austria, Denmark and France** in three wars over seven years and completed the process of unification.

Nationalism was achieved through “**blood and iron**” (war and military power).

In January 1871, the **Prussian king, William I** was proclaimed German emperor in a ceremony held at **Versailles**.

The Strange Case of Britain

Unlike Europe, Britain's unification was a gradual process through **parliamentary acts**.

England dominated over **Scotland, Wales, and Ireland**.

The formation of the **United Kingdom of Great Britain** through the **Act of Union (1707)** between **England and Scotland**.

The **Union Jack**, national anthem, and English language promoted British nationalism.

VISUALISING THE NATION-

Visualizing the Nation: -

Artists in 18th and 19th centuries found a way out by personifying a nation.

That is the female figure became an allegory of the nation. In France she was Christened Marianne.

Her characteristics were drawn from those of liberty and republic- the red cap, the tricolour, the cockade.

Germania became the allegory of the German nation.

Germania wears a crown of oak leaves, as the German oak stands for heroism.

Nationalism and Imperialism: A Historic Context

Region & Variation

The Balkan region was characterized by vast geographical and ethnic variation, Bulgaria, Albania, Greece, Macedonia, Croatia, Bosnia-Herzegovina, Slovenia, Serbia, and Montenegro.

Till the last part of 19th century, this was under Ottoman Empire.

The disintegration of the Ottoman Empire and emergence of romantic nationalism made this region a land of conflict.

Balkan nations tried to capture more territories from neighbouring places.

It also became a scene of big power rivalry like Russia, Germany, England, Austria and Hungary.

Balkan Issue:-

Nationalism & Conflict

The disintegration of the Ottoman Empire, coupled with the rise of romantic

Territorial Expansion

Balkan nations aggressively sought to expand and capture more territories from neighbouring regions.

Ottoman Rule

Under Ottoman Empire control until the latter part of the 19th century.

It led to open wars and finally led it to the First World War.

Big Power Rivalry

Became a critical arena for massive power rivalries involving empires like Russia, Germany, England, and Austria-Hungary.

Led to World War I

This dangerous mix led to open conflicts, culminating directly in the outbreak of the First World War.

NATIONALISM IN EUROPE

Nationalism is a feeling of love, pride and loyalty towards one's nation. In Europe during the 19th century, it inspired people to fight for freedom, unity and the formation of nation-states.

CAUSES

1. IDEAS OF LIBERALISM

Spread of ideas of liberty, equality and fraternity inspired people to demand rights and self-government.

2. RISE OF MIDDLE CLASS

The middle class wanted political power and greater participation in governance.

3. ROMANTICISM

Writers, poets and artists glorified the nation, its culture, language, history and traditions.

4. FRENCH REVOLUTION (1789)

It inspired people with the ideas of liberty, equality and fraternity and spread nationalism.

5. UNIFICATION OF GERMANY AND ITALY

The unification of Germany and Italy inspired other nations to fight for unity and freedom.

IMPACT OF NATIONALISM

1. UNIFICATION OF GERMANY (1871)

German states were united under Prussia's leader Otto von Bismarck.

2. UNIFICATION OF ITALY (1861)

Different Italian states were united under the leadership of Count Cavour and Giuseppe Mazzini.

3. EMERGENCE OF NATION-STATES

Many countries in Europe became independent nation-states.

4. END OF FOREIGN RULE

People in many regions fought against foreign empires and gained freedom.

5. INSPIRATION TO THE WORLD

The spirit of nationalism in Europe inspired people in Asia, Africa and Latin America.

CONCERNS AND LIMITATIONS

1. EXCLUSION AND DISCRIMINATION

Nationalism often excluded people who spoke different languages, followed different religions or belonged to different ethnic groups.

2. CONFLICTS AND RIVALRIES

It led to rivalries among nations and eventually caused wars.

3. AGGRESSIVE NATIONALISM

Some nations promoted the idea of superiority over others.

4. IMPERIALISM

European powers used nationalism to justify colonialism and domination over other countries.

5. SUPPRESSION OF MINORITIES

Minority groups were often denied rights in the name of creating a 'one nation, one culture' policy.

CONCLUSION

Nationalism in Europe played a vital role in the 19th century. It helped in the unification of countries and the end of foreign rule. However, when taken to extremes, it also led to conflicts, discrimination and wars. Thus, while nationalism can unite people, it should always respect diversity and promote peace.

CHAPTER -3 THE MAKING OF A GLOBAL WORLD

Topics	Core Focus & Examples	Major Impact
1. Pre-Modern World	Ancient movement of traders, pilgrims, and traveller's carrying goods, ideas, and skills.	Early integration of distant cultures and civilizations.
2. Silk Routes	Vast network linking Asia, Europe, and Africa. Traded Chinese silk/pottery and Indian textiles.	Enabled deep cultural exchange (spread of Buddhism, Christianity, and Islam).
3. Food Travels	Introduction of "New World" crops (potatoes, maize, chillies, tomatoes) by Columbus.	Potatoes improved Europe's diet, doubled life expectancy, but caused the Irish Famine (1840s) when crops failed.
4. Conquest & Trade	16th-century Spanish and Portuguese colonization of the Americas.	American silver (Potosí mines) funded European trade; wealth shifted away from Asia to Europe.
5. Disease as a Weapon	Spanish conquerors accidentally introduced Smallpox to Native Americans.	Wiped out entire communities due to zero immunity, making colonization easy without military force.

Travelers Carried:-

- Goods -Germs - Money -Ideas
-Values -Inventions - Skills -Diseases

The Pre-modern World

- Long-distance trade existed through land and sea (e.g., Silk Routes).
- Goods, people, ideas, and cultures moved freely.
- Silk Route: Connected China to Europe via Central Asia.

Trade also brought cultural exchange: Buddhism spread to Asia via travellers and monks.

Conquest, Disease, and Trade

- European conquest of the Americas began in the 16th century.
- Diseases like smallpox devastated Indigenous populations.
- Conquest and disease enabled easier European colonization.
- America was seen as a source of precious metals and plantation crops.

Food Travels:- Spaghetti, Potato

Others- Soya, groundnuts, maize, tomatoes, chillies, sweet potatoes etc. came from America.

Conquest, Diseases and Trade:

- After the discovery of America pre modern world shrank.
- India became a crucial point due to its central position between America and Europe.
- Precious metals of America- 1. Silver – Peru and Mexico 2. Gold – EL Dorado (the fabled city of gold).
- Biggest weapon of Spanish –The germs of smallpox.

Multiple Choice Questions (1 marks)

Q1. The arrival of Europeans in America led to a massive decline in the indigenous population mainly because:

- a) The natives refused to trade with Europeans.

- b) Europeans introduced diseases to which natives had no immunity.
- c) The climate changed drastically.
- d) Natives voluntarily relocated to other areas.

Hint b) Europeans introduced diseases to which natives had no immunity.

VERY SHORT TYPE QUESTIONS – (2 marks)

Q1. Europeans took _____ and _____ as important items from the Americas.

Hint: One is a crop that became a staple food in Europe; the other was a valuable cash crop.

Answer: potatoes and tobacco

SHORT TYPE QUESTIONS- (3 marks)

Q1. The Silk Route was not only about silk and spices but also about ideas and technologies moving across continents. "Explain how the Silk Route contributed to global connections.

Hint: Two things that spread via trade routes.

Q2. What were the major effects of European conquest on the indigenous populations of the Americas? Analyse the social, economic, and cultural impacts using historical evidence.

Hint: Introduction of new diseases (e.g., smallpox) caused mass deaths. Destruction of native societies and cultures through colonisation. Exploitation of natural and human resources for European profit.

LONG ANSWER QUESTIONS – (5 marks)

Q1. What were the key consequences of the European conquest of the Americas in the 16th century? Examine its impact on indigenous societies, the European economy, and global trade patterns.

Hint: Indigenous population declined due to disease and war, Gold and silver from America enriched European economies, Creation of plantation economies with enslaved or forced labour, Cultural destruction of native societies and imposition of European norms.

CHAPTER-4

PRINT CULTURE AND THE MODERN WORLD

Topic	Key Event / Fact	Major Impact / Significance
1. East Asian Beginnings	Hand-printing (woodblock) in China, Japan, and Korea. Oldest book: Japanese <i>Diamond Sutra</i> (868 AD).	China used print to publish textbooks for its massive civil service exams.
2. Journey to Europe	Marco Polo brought woodblock printing from China to Italy in 1295.	Shifted Europe from expensive, fragile handwritten manuscripts to faster printing.
3. Gutenberg's Press	Johann Gutenberg (Germany) invented the mechanical movable-type press in the 1440s. Bible was the first book.	Started the Print Revolution . Reduced book costs, boosting literacy and a new reading public.
4. Religious Impact	Martin Luther wrote <i>Ninety-Five Theses</i> (1517) attacking Roman Catholic corruption.	Led to the Protestant Reformation . Print allowed religious ideas to spread faster than ever before.
5. French Revolution	Print popularized Enlightenment ideas (Voltaire, Rousseau) and mocked the French royalty.	Created a public culture of debate and reason, psychologically preparing people for the 1789 Revolution.
6. 19th Century Shifts	Compulsory schooling made children a major market. Power-driven cylindrical presses automated mass printing.	Women became prominent readers/writers (e.g., Jane Austen). Working class used libraries for self-education.
7. Print Enters India	Portuguese missionaries brought the press to Goa (mid-16th century). J.A. Hickey started <i>Bengal Gazette</i> (1780).	Broke the monopoly of fragile, elite-only handwritten palm-leaf manuscripts.
8. Social & Religious Debates	Raja Ram Mohan Roy published <i>Sambad Kaumudi</i> (1821) to oppose social evils like Sati.	Spurred intense public debates between social reformers and orthodox religious groups.
9. Women's Writing	Rashsundari Devi wrote <i>Amar Jiban</i> (1876)—the first full-length autobiography by an Indian woman.	Women used print to share their lived experiences and critique their subjugation in patriarchal society.
10. Censorship in India	British passed the draconian Vernacular Press Act (1878) to censor local language newspapers.	Designed to suppress nationalist ideas, but triggered stronger resistance. Nationalist papers like Tilak's <i>Kesari</i> grew rapidly.

The First Printed Books

Earliest printing:
China (woodblock printing). Spread to Japan and Korea.

Buddhist missionaries and merchants helped spread printing in Asia.

Gutenberg and the Printing Press-

- **Johann Gutenberg** invented the **printing press** in **Germany** (mid-15th century).
- First printed book: **Bible** (1455).
- Printing revolutionized communication—**manual copying replaced by movable type printing**.

The Print Revolution and Its Impact-

- Printing led to: **Increased literacy**. Spread of **new ideas and knowledge**. Emergence of **reading public**.
- **Martin Luther's** Ninety-Five Theses spread via print, fueling the **Protestant Reformation**.
- **Scientific and political ideas** spread rapidly.

Books became cheaper and more accessible.

The earliest kind of print technology was developed in China, Japan and Korea.

This was a system of hand printing.

From AD 594 onwards, books in China were printed by rubbing paper – also invented there – against the inked surface of woodblocks.

Print in Japan

Buddhist missionaries from China introduced hand-printing technology into Japan around AD 768-770. The oldest Chinese book, printed in AD 868, is the Buddhist Diamond Sutra.

Print comes to Europe:-

Reached from China through Marco Polo in 1295.

Written on expensive Vellum.

Vellum- A parchment made from the skin of animals.

Johann Gutenberg:-

Inventor of first mechanical printing machine.

Son of merchant from- Strasbourg (Germany).

The first book he printed- 'the Bible' (180 copies).

It took three years to produce.

By the standards of that time, this was fast production

THE GLOBAL JOURNEY OF PRINTING: A HISTORY IN STAGES

1. PRINT IN JAPAN: THE DAWN

AD 768-770: Buddhist Missionaries from China Introduce Hand-Printing

AD 868: The Buddhist Diamond Sutra, the Oldest Dated Chinese Printed Book

2. EXPANSION TO EUROPE

1295: Marco Polo brings Printing Knowledge from China to Europe

Written on expensive VELLUM (animal skin parchment)

3. THE GUTENBERG REVOLUTION

Strasbourg, Germany

JOHANN GUTENBERG:-

Inventor of First Mechanical Printing Machine
Son of a Merchant from Strasbourg

It took three years to produce.
By the standards of that time, was fast production

THE MASTERPIECE: THE BIBLE

- ◆ First Book Printed (180 Copies Produced)
- ◆ It took THREE YEARS to complete

BY THIS TIME'S STANDARDS, THIS WAS FAST PRODUCTION

Print Culture In India

Early printing started with Portuguese missionaries in Goa.

First Tamil book printed in 1579.

Newspapers, books, religious texts, and social reform literature became popular.

By the 19th century, printing had spread to vernacular languages.

Prints revolution and its impacts:-

A new reading public

Religious debates and the fear of print

Luther said:
"printing is the ultimate gift of god and the greatest one".

A new reading public

Religious debates and the fear of print

Martin Luther:-

- German monk, priest, theologian and church performer.
- He wrote 95 theses criticizing many of the practices and rituals of the Roman Catholic Church (RCC).
- A printed copy of this was posted on a church door in Wittenberg. It challenged the church to debate his ideas.

- Luther said "printing is the ultimate gift of god and the greatest one".

The Reading Mania:-

The Reading Mania:-

- Literary rates increased.
- Churches of different denominations started educational institutions in every nook and corner of Europe.
- Reading habit increased.

RELIGIOUS REFORMS & PUBLIC DEBATES

Early 19th Century India: The Rise of Print & Intellectual Conflict

THE REFORMIST VOICE

Raja Ram Mohan Roy pioneered the movement in 1821 with Sambad Kaumudi. Ideas were printed in local languages like Bengali to reach the common public, challenging monotheism and traditional social rigidities.

ORTHODOX RESISTANCE

To counter radical reforms, the Hindu orthodoxy commissioned Samachar Chandrika. This triggered intense public controversies between reformers and traditionalists over matters like widow immolation and priesthood.

LINGUISTIC REACH

By 1822, debates expanded into Persian via Jam-i-Jahan Nama and Shamsul Akbar. The Bombay Samachar (1822) brought these crucial debates to the Gujarati-speaking public, marking a new era of mass awareness.

HISTORICAL OVERVIEW • 19th CENTURY SOCIAL HISTORY • PRINT CULTURE

India and the World of Print: Historical and Social Impact

SOCIAL REFORMERS: -

- Jyotiba Phule- Pioneer of low Caste movements. He wrote about the injustices of 'Low Caste' in his book 'Gulamgiri' in 1871.

- B. R. Ambedkar in Maharashtra.
- E. V. Ramaswamy Naicker in Madras (Pariyar).
- Kashibaba- A Kanpur mill worker, wrote and published Chhote Aur Bade Ka Sawal in 1938.
- Sudarshan Chakr (group of another mill worker) published in a collection called- Sacchi Kavitaen.

• Print and Censorship:-

- By the 1820s, Calcutta Supreme Court passed certain regulations to control press freedom.
- In 1878, the Vernacular Press Act was passed. It provided extensive rights to government to censor reports. But nationalist newspapers grew in numbers.
- Bal Gangadhar Tilak wrote in favour of Punjab revolutionaries in Kesari in 1907.

MULTIPLE CHOICE QUESTION- (1 marks)

1. *"In the 19th century, print became an important tool for reformers who wanted to promote ideas of education, caste reform, and women's rights. "Which role did print culture play in 19th-century Indian society?*

- a) Reduced literacy
- b) Spread superstitions
- c) Encouraged colonial loyalty
- d) Promoted social reform and awareness

Answer: d) Promoted social reform and awareness

Q2. How did the development of print culture in India impact Indian society during the 19th and early 20th centuries?

- A) It restricted access to education and reinforced caste divisions
- B) It led to the decline of Indian languages and promoted only English
- C) It encouraged the spread of new ideas, social reform, and a sense of nationalism among Indians
- D) It reduced public interest in politics and limited awareness of colonial policies

Hint: C) It encouraged the spread of new ideas, social reform, and a sense of nationalism among Indians

Q3. After the invention of the printing press around 1450, what major change occurred in society?

- a. People stopped reading books
- b. Only nobles could access books
- c. Information became widely available
- d. Manuscripts replaced printed texts

Hint: Printed books replaced rare, handwritten ones.

4.Assertion (A): The earliest kind of print technology was developed in China, Japan, and Korea.

Reason (R): These countries used woodblock printing long before it was introduced in Europe.

- A. Both A and R are true, and R is the correct explanation of A.
- B. Both A and R are true, but R is not the correct explanation of A.
- C. A is true, but R is false.
- D. A is false, but R is true.

Hint: A. Both A and R are true, and R is the correct explanation of A.

VERY SHORT ANSWER TYPE QUESTIONS- (2 marks)

Q1. Printing technology developed independently in Asia and Europe, leading to cultural revolutions. In Europe, Gutenberg's printing press led to the mass production of which famous book?

Hint: It was the Latin version of a sacred text.

Q2. Reformers in colonial India used newspapers and journals to challenge traditional practices and promote modern thinking. *Satyarth Prakash* was a journal that played a key role in the _____ movement.

Hint: This movement was started by Swami Dayanand Saraswati.

SHORT ANSWER TYPE QUESTIONS – (3 marks)

1. *"The Vernacular Press Act of 1878 was introduced by the British to curb the influence of Indian-language newspapers. "Why was the Vernacular Press Act seen as repressive by Indians?*

Hint: It allowed censorship and control over Indian-language newspapers, restricting freedom of expression and nationalist discourse.

Q2. Imagine you are living in the 19th century when reformers like Raja Rammohan Roy and others used print to reach the masses. In what ways did the spread of printed materials help reform Indian society?

Hint: Consider the accessibility of ideas, debates, and public opinion.

Q3. Martin Luther's Ninety-five Theses were quickly printed and distributed across Europe. Mention two ways in which print culture helped the spread of the Protestant Reformation.

Hint: Think about accessibility and speed of information.

LONG ANSWER TYPE QUESTIONS- (5 marks)

Q1. Before the printing press, books were rare and expensive, limiting knowledge to a few. After its invention, things changed rapidly. Compare European society before and after the spread of print culture. How did print change people's lives?

Hint: Consider access to books, diversity of opinions, and public debates.

2.How did print culture develop in India during colonial times, and in what ways did it influence social reform, religious debates, and the rise of nationalism in Indian society?

Hint: Introduced by missionaries, Expanded to Indian languages, Supported reform movements, women's education, caste inequalities. Increased literacy, colonial rule. Empowered marginalized groups.

CHAPTER-1

RESOURCE AND DEVELOPMENT

Resources and Utilization	Not free gifts of nature - Created via interaction between nature, technology, and human institutions - Indiscriminate use leads to: • Depletion of resources • Economic inequality • Ecological issues (global warming, pollution)
Resource Planning	Needed due to uneven distribution - Steps: • Identification and surveying • Use of technology and institutions • Alignment with national goals - Requires tech, skilled people, and institutions
Resource Conservation	Gandhiji warned against greed - Supported production by masses, not mass production - Aim: sustainable, non-exploitative use
Land as a Resource	- Supports life, agriculture, economy - India's land features: • Plains (43%) – agriculture, industry • Mountains (30%) – rivers, tourism, ecology • Plateau -27%
Land Use & Challenges	- Depends on soil, climate, topography, population, culture, tech - Issues: shrinking pastures, low forest cover, regional variation - Example: Punjab – high cultivation; NE states – low cultivation
Land Degradation & Conserv	- Causes: deforestation, overgrazing, mining, over-irrigation, industrial pollution - Effects: soil damage, low productivity, ecological harm - Solutions: afforestation, controlled grazing, sand dune stabilization, waste treatment, mining site management

TOPICS: -

SOIL CLASSIFICATION-

Alluvial soil

- Found in northern/eastern plains, parts of Rajasthan, Gujarat
- Made by river deposition, widespread & fertile
- Types:
 - Bangar – older, less fertile
 - Khadar – newer, more fertile
- Ideal for sugarcane, wheat, paddy

Black soil:

- Called Regur or black cotton soil
Found in Deccan plateau
- Moisture-retentive, clayey
 - Rich in Ca, Mg, potash, lime; poor in Phosphorus
 - Cracks in dry season help aeration

Red and yellow:

- From igneous rocks
- Found in Deccan, Odisha, Chhattisgarh, W. Ghats
- Red due to iron; yellow when hydrated

Laterite soil

- Leached by heavy rain
- Found in Karnataka, Kerala, TN, Odisha, WB, NE
 - Acidic, poor in nutrients
 - Good for tea, coffee, cashew with conservation method

Arid soil

- Found in Rajasthan
- Sandy, saline, low moisture/humus
- Kankar layers block water
- Cultivable with irrigation

Forest soil

- Found in hilly/mountain areas
- Texture: silty/loamy in valleys; coarse on slopes
- Acidic, low humus (snowy); fertile (river terraces)

SOIL EROSION: A Comprehensive Guide

TYPES OF EROSION: A Comparative Study

SHEET EROSION: Uniform Topsoil Removal

WIDE, UNIFORM REMOVAL,
Gradual, insidious flow
over large areas.

BEFORE AFTER
Gradual thinning of
the fertile A-horizon

**LOSS OF NUTRIENTS
& ORGANIC MATTER,**
Reducing soil productivity.

Uniform large-scale removal of topsoil by thin water sheets, often over flat land,
causing invisible gradual damage.

GULLY EROSION: Localized Deep Channelization

**INTENSE, LOCALIZED CHANNEL
FLOW & HEADCUT ADVANCE.**

A-HORIZON
cult and B-HORIZON

FORMIDABLE LANDSCAPE CHANGES
Rendering land unusable for farming.

Concentrated, deep channels carved into the landscape, often on steeper slopes,
causing massive physical disruption.

CAUSES OF SOIL EROSION

DEFORESTATION
(Loss of vegetative
cover)

OVERGRAZING
(Too many animals,
too little grass)

MINING
(Surface soil removal
and disturbance)

BAD FARMING PRACTICES
(Incorrect techniques and
water flow management)

SOLUTIONS & MITIGATION

CONTOUR PLOUGHING
(Ploughing along slope
contours)

TERRACE FARMING
(Stepped hillsides to
reduce water velocity)

STRIP CROPPING
(Alternating strips of
crops to trap soil)

SHELTER BELTS
(Lines of trees as
windbreaks and barriers)

RESOURCE PLANNING IN INDIA

Identification and inventory of resources across regions

- Surveying
- Mapping
- Qualitative & quantitative estimation & measurement

Evolving a planning structure endowed with appropriate technology, skill and institutional set up for implementing resource development plans

Matching the resource development plans with overall national development plans

MULTIPLE CHOICE QUESTIONS (1 marks)

Q1. Which of the following is correctly matched?

- Alluvial soil -ideal for cotton
- Black soil -Calcium-rich Kankar layers hinder water infiltration.
- Laterite soil -Useful for tea, coffee, and cashew with proper conservation methods
- Red and yellow soil -Formed due to deposition by rivers

Hint: C. Laterite soil -Useful for tea, coffee, and cashew with proper conservation methods.

Q2. **Assertion (A):** Resource planning in India requires matching resource development plans with national development strategies.

Reason (R): Resource planning is limited to identifying and mapping resources without integrating technology or institutional frameworks.

Options:

- A. Both A and R are true and R is the correct explanation of A
- B. Both A and R are true but R is not the correct explanation of A
- C. A is true but R is false
- D. A is false but R is true

Correct Answer: C. A is true but R is false

VERY SHORT ANSWER TYPE QUESTIONS (2 marks)

Q.1 _____ Is the solution to solve the problem of land degradation in Himalayan region.

Hint-Type of farming in hilly areas.

SHORT ANSWER TYPE QUESTIONS (3 marks)

Q1. "Resource planning is essential for the sustainable existence of all forms of life." Do you agree? Justify your answer with examples.

Hint: Yes, I agree with this statement -

1. resource planning ensures balanced use
2. prevents depletion
3. supports future needs.

example: - afforestation and water conservation protect ecosystems, while managing minerals sustains industries without harming nature.

Q2. Evaluate the effectiveness of resource planning in India. What are its strengths and limitations?

Hint: 1. Resource planning in India promotes efficient use and sustainable development.

2. Its strengths include balanced regional growth and conservation.

However, it faces limitations like poor implementation, regional imbalances, and lack of coordination, which hinder its full effectiveness.

PICTURE BASED QUESTIONS-

Source : Directorate of Economics and Statistics, Ministry of Agriculture and Farmers Welfare, Government of India, 2023

Questions

Q 1. What could be the reason behind the rise in forest area?

Hint: 1. Afforestation drives, 2. Awareness campaigns, 3. strict forest protection laws.

Q 2. Why has barren and unculturable land decreased over time?

Hint: 1. Land development, 2. soil improvement, 3. better land use planning.

Q 3. How reduction in permanent pasture affect rural livelihoods?

Hint: Less grazing land impacts livestock farming and dairy income.

Q 4. Why is stable net sown area significant for food security?

Hint: Ensures consistent agricultural output to meet growing population demands.

LONG ANSWER TYPE QUESTIONS (5 marks)

Q1. If Gandhiji's idea of "production by the masses" were applied today, how would it change industries and local economies in rural India?

Hint: Applying Gandhiji's idea of "production by the masses" today would 1Decentralize industries, 2. Empower rural artisans, 3. Reduce unemployment, 4. Promote sustainable local economies.

Q2. Can technological advancement alone ensure sustainable resource use? Why or why not?

Hint: No, technological advancement alone cannot ensure sustainable resource use; it must be combined with 1. awareness, policies, 2. responsible human behavior.

Q1. A village has fertile land, water resources, and forests. The government plans to build a large industry in that area.

A. What benefits can the industry bring to the village?

B. How may industrial development affect natural resources?

C. Suggest two ways to balance development and conservation.

Hints:

A. Employment opportunities, better infrastructure, and economic growth.

B. It may cause deforestation, pollution, and depletion of water resources.

C. 1. Use eco-friendly technology.

2. Practice afforestation and proper waste management.

CHAPTER-2

FOREST AND WILDLIFE RESOURCES

Conservation of forest and wildlife

Types and distribution of forest and wildlife resources-

In order to control, manage and regulate forest - government divided forests into following categories-

Permanent forest		Non-permanent forest
Madhya Pradesh has the largest area of permanent forests (75% of its forest area).		
Reserve forest (States like Jammu & Kashmir, Andhra)	Protected forest (Bihar, Haryana, Punjab, Himachal)	Unclassed forest (Northeast states and parts)

Pradesh, Uttarakhand, Kerala, Tamil Nadu, West Bengal, and Maharashtra)	Pradesh, Odisha, and Rajasthan)	of Gujarat)
Over half of the forest land is declared reserved. These are the most valuable for conservation efforts	Around one-third of forest land is protected. Protected from further depletion.	Forests and wastelands owned by government, private individuals, or communities.

ROLE OF COMMUNITY IN CONSERVATION

How can development and conservation go hand-in-hand without harming biodiversity?

Keywords-

Chipko movement- A grassroots movement to prevent deforestation in the Himalayas

Deforestation – The removal or clearing of forests, often for agriculture or urban development.

Extinct Species – Species that no longer exist

Endangered Species – Species that are at risk of extinction

Sacred Groves – Forest areas protected due to religious or cultural beliefs.

Conservation – The protection and preservation of natural environments and wildlife

Vulnerable Species – Species that are likely to become endangered unless circumstances improve

MULTIPLE CHOICE QUESTIONS (1 marks)

Q1. Assertion (A): The Chipko Movement was a significant grassroots initiative aimed at preventing deforestation in the Himalayan region.

Reason (R): People hugged trees to prevent them from being cut down by forest contractors.

- a. Both A and R are true, and R is the correct explanation of A.
- b. Both A and R are true, but R is not the correct explanation of A.
- c. A is true, but R is false.
- d. A is false, but R is true.

Hint: a. Both A and R are true, and R is the correct explanation of A.

Q2. Which of the following best reflects the innovative approach of movements like Beej Bachao Andolan and Navdanya?

- A) Promoting large-scale commercial farming using modern pesticides
- B) Encouraging genetically modified crops for higher yield
- C) Supporting traditional seed conservation and chemical-free farming
- D) Advocating complete ban on agriculture to protect forests

Hint: C) Supporting traditional seed conservation and chemical-free farming

SHORT ANSWER TYPE QUESTIONS (3 marks)

Q2. Discuss how developmental work, grazing, food cutting has affected the forest.

Hint: Effect of Developmental Work on Forests

Developmental activities such as construction of roads, dams, industries, mining, and urban expansion often require clearing large forest areas.

Effects:

- 1-Destruction of natural habitats of wildlife
- 2-Reduction in forest cover
- 3-Soil erosion and land degradation
- 4-Disturbance in ecological balance
- 5-Increase in pollution and global warming

Q3. Explain the role of traditional knowledge (like sacred groves) and modern laws in conserving biodiversity?

Hint: 1. Traditional knowledge preserves biodiversity through cultural respect and protection of nature, 2. while modern laws enforce legal measures to regulate use and prevent exploitation of natural resources.

Q4. What innovative practices would you implement to ensure sustainable conservation, and how would you involve the local community?

Hint: I would promote eco-tourism, organize tree plantation drives, use local knowledge, conduct awareness campaigns, and form community forest groups to monitor and protect wildlife sustainably.

Q5. "Imagine you are a wildlife scientist tasked with saving a vulnerable species. What steps would you take to prevent it from becoming endangered or extinct, and why?"

Hint: I would 1. Protect its habitat, 2. Regulate hunting, 3. Promote breeding programs, 4. Raise public awareness, 5. Collaborate with local communities to ensure long-term survival 6. Prevent further decline.

Q6. Is it justifiable to displace local communities from forests to protect wildlife? Give arguments for and against.

Hint: For: It helps create safe habitats for wildlife.

Against: It disrupts livelihoods and traditional conservation roles of communities.

Balanced solutions should protect both wildlife and human rights.

PICTURE BASED QUESTIONS-

Questions-

1. Why do you think the gharial population has declined despite conservation efforts?

Hint: 1. Habitat loss, 2. Pollution, 3. Weak enforcement reduces gharial survival chances.

2. How might pollution in rivers like the Yamuna affect the food chain and other aquatic species besides birds and gharials?

Hint: Pollution kills fish, disrupting the diet of aquatic predators.

3. What steps can citizens and governments take together to restore the gharial's natural habitat?

Hint: Clean rivers, protect nesting areas, enforce laws, spread awareness.

4. If you were a wildlife filmmaker, how would you raise awareness about the plight of gharials?

Hint: Create emotional documentaries, share stories, and reach global audiences

CASE STUDY BASED QUESTIONS (4 marks)

Q1. In India, local communities have played a pivotal role in forest conservation through initiatives like the Joint Forest Management (JFM) programme. This programme, initiated in 1988 in Odisha, involves local communities in the protection and restoration of degraded forest lands. In return, these communities are entitled to benefits such as access to non-timber forest products and a share in the timber harvested from these forests.

Questions:

- What is the primary objective of the Joint Forest Management (JFM) Programme?
- Which state in India passed the first resolution for Joint Forest Management in 1988?
- What benefits do communities receive under the JFM Programme?
- How does the involvement of local communities contribute to forest conservation?

CHAPTER-3

WATER RESOURCE

GIST OF THE CHAPTER

- ❖ Water scarcity exists due to unequal distribution, overuse, pollution, and growing demand despite water being renewable through the hydrological cycle.

Multipurpose river project and integrating water resource management

Ancient practices	India has a long history of constructing hydraulic structures like dams, reservoirs, and canals for irrigation.
Modern dams	Built for multiple uses – irrigation, electricity generation, water supply, flood control, recreation, and fish breeding.
Multipurpose projects	Integrate various uses of water, e.g., Bhakra–Nangal and Hirakud projects serve both irrigation and power generation.
Development symbols	Post-independence dams were seen as "temples of modern India" for boosting agriculture and industrialization.
Environmental concerns	Disrupt natural river flow and aquatic life. Cause excessive sedimentation and rockier riverbeds. Submerge vegetation and soil, leading to decay and pollution.
Flood issues	Instead of controlling floods, dams often cause them due to silt buildup in reservoirs.
Ecological impacts	● Loss of fertile silt on floodplains. ● Induced soil salinisation due to water-intensive cropping. ● Risk of waterborne diseases, pests, and even earthquakes.
Government initiatives	Pradhan Mantri Krishi Sinchayee Yojana aims to ● Ensure irrigation for every farm ("Har Khet Ko Pani"). ● Promote efficient water use ("Per Drop More Crop"). ● Encourage sustainable conservation practices ❖ Atal Bhujal Yojana promotes groundwater conservation in water-stressed areas through community participation

"Large dams are a double-edged sword for flood management." Use examples to support your reasoning.

During heavy rains, they capture excess runoff that would otherwise drown downstream towns

1.Example: The Hirakud Dam (Odisha). It was constructed specifically to tame the "Sorrow of Odisha" (the Mahanadi River) by regulating its flow and protecting the delta region from frequent devastating floods

2.Example: The Bhakra-Nangal Project. It manages the heavy snowmelt and monsoon waters of the Sutlej River, preventing flooding in Punjab and Haryana while storing that water for dry seasons

MULTIPLE CHOICE QUESTIONS (1 marks)

1. Multi-purpose river valley projects are often hailed as "Temples of Modern India," yet they also face criticism. Which of the following scenarios best reflects a balanced view of such projects?

- (a) They should be abandoned because they only cause displacement and ecological damage.
- (b) They are perfect solutions for all water and energy problems.
- (c) They offer multiple benefits but must be planned with care for people and the environment.
- (d) They are only useful for producing electricity and nothing else.

Correct Answer:(c) They offer multiple benefits but must be planned with care for people and the environment.

2. Which of the following decisions would likely lead to sustainable water management?

- (a) Encouraging unplanned urbanisation to increase water use in cities.
- (b) Promoting rooftop rainwater harvesting even in canal-irrigated regions.
- (c) Damming all rivers permanently to stop seasonal flooding.
- (d) Ignoring traditional water harvesting methods in favour of modern dams.

Correct Answer: (b) Promoting rooftop rainwater harvesting even in canal-irrigated regions.

SHORT ANSWER TYPE QUESTIONS (3 marks)

Q.1 How do human activities either support or hinder the renewability of water?

Hint: Human activities support water renewability through conservation and recycling but hinder it through pollution, overuse, deforestation, and may displace communities, submerge forests, and disrupt natural aquatic ecosystems.

Q.2 Scenario: In a region experiencing prolonged drought, local farmers are facing crop failures, and urban areas are implementing water rationing. Analyze how both climate change and over-extraction of groundwater contribute to water scarcity in this scenario?

Hint: Climate change reduces rainfall, exacerbating drought, while over-extraction of groundwater depletes aquifers, further limiting water availability for agriculture and urban needs.

PICTURE BASED QUESTIONS-

Questions-

Q 1. Imagine you're designing an eco-friendly irrigation system for a remote village—how could bamboo be used not just as a material, but as a symbol of sustainable

Hint: Bamboo is renewable, grows quickly, and is biodegradable.

Q 2. Why do you think the natural geography of hilly regions makes bamboo drip irrigation more efficient than conventional methods? Can you link this to the concept of 'using nature to work with

nature’?

Hint: Bamboo channels use the slope to transport water without pumps or fuel.

Q 3. If you were a farmer relying on bamboo drip irrigation, what kinds of problems might you face over time? How would you creatively solve these without losing the system's sustainable character?

Hint: Challenges: Bamboo may rot, crack, or be damaged by insects. Regular maintenance is required. Creative solutions: combine bamboo with durable eco-friendly materials (e.g., clay or recycled plastic reinforcements).

Q 4. How can age-old methods like bamboo drip irrigation guide the future of water management in urban or tech-driven societies? Can you think of a modern tool or technology that could be blended with this traditional method?

Hint: 1. Promotes low-cost, 2. Low-waste water usage models, 3. Urban vertical gardens or rooftop agriculture might adapt similar gravity-fed irrigation using sustainable materials.

LONG ANSWER TYPE QUESTIONS: (5 marks)

1. Compare the long-term economic benefits with the short-term social costs associated with the dam's construction.

Hint: 1. Long-term economic benefits include power generation and irrigation, 2. while short-term social costs involve displacement of communities and environmental disruption.

2. **Scenario:** A region has successfully implemented rainwater harvesting and water recycling programs to combat water scarcity.

Question: Propose additional sustainable water management practices that could further alleviate water scarcity in this region

Hint: Additional practices include promoting efficient irrigation techniques, restoring wetlands, reducing water wastage, and encouraging water conservation through public awareness campaigns.

CHAPTER -4

AGRICULTURE

GIST OF THE CHAPTER-

- ❖ Two-thirds of India's population is engaged in agriculture.
- ❖ Agriculture is a primary activity, providing:
 - Food grains
 - Raw materials for industries (e.g., cotton for textiles, sugarcane for sugar industry).
 - Export products like tea, coffee, and spices.

- ❖ India grows diverse crops like rice, wheat, pulses, tea, coffee, sugarcane, oilseeds, cotton, and jute, based on climate and soil.

Challenges Faced by the Farming Community in India

MULTIPLE CHOICE QUESTIONS (1 marks)

Q.1. Farmers in a village are facing declining soil fertility due to continuous cultivation of cereals. They are advised to include a crop that not only provides nutrition but also naturally restores nitrogen in the soil without chemical fertilizers. Which of the following crops should they grow to achieve this?

(a) Jawar (b) Millets (c) Sesamum (d) Pulses

Correct Answer: (d) Pulses

Q.2. **Assertion (A):** Technological reforms alone are not sufficient to ensure long-term agricultural growth in India.

Reason (R): Issues such as unequal land ownership, lack of access to credit, and socio-economic inequalities also affect agricultural development.

Options:

- (a) Both A and R are true, and R is the correct explanation of A.
- (b) Both A and R are true, but R is not the correct explanation of A.
- (c) A is true, but R is false.
- (d) A is false, but R is true.

Answer: a) Both A and R are true, and R is the correct explanation of A.

SHORT ANSWER TYPE QUESTIONS (3 marks)

Q 1. Why is tea mainly grown in specific regions of India and not throughout the country?

Hint: Think about geographical conditions needed for tea cultivation—like 1. Climate, 2. Temperature, 3. Rainfall, 4. Soil. Also, consider hilly terrain and labour availability, which affect where tea can be successfully grown.

Q 2. How might climate change affect the cultivation of beverage crops like tea and coffee?

Hint: Climate change may alter rainfall patterns and temperatures, affecting yield, quality, and suitable regions for growing tea and coffee.

Q 3 MSP (Minimum Support Price) is a safety net for farmers." Justify this statement.

Hint. MSP protects farmers from middlemen and fluctuations in market prices, so that they can get fair price for their crops.

Q 4. How is providing 'Weather Bulletins' on radio and television a 'Technological Reform'?

Hint. This enables farmers to plan sowing and harvesting of their crops according to the weather, thereby reducing losses.

LONG ANSWER TYPE QUESTIONS (5 marks)

1. How can government policies be designed to ensure both increased agricultural production and sustainable land use practices? Suggest innovative measures and evaluate their potential impact.

Hint: 1-Government policies can Promote organic farming, 2. Precision agriculture, 3. Crop diversification, 4. Water-efficient techniques to boost production while conserving land and resources.

2.Examine how agricultural initiatives like the Green Revolution have influenced crop patterns in India. What creative strategies can be adopted to balance productivity with environmental sustainability?

Hint: The Green Revolution increased yields but caused soil degradation; promoting organic farming, crop rotation, and agroforestry can balance productivity and sustainability.

3.How can digital technology and modern irrigation methods transform traditional rice farming in regions with suitable geography? Evaluate their role in improving yield and efficiency.

Hint: Digital tools and modern irrigation improve monitoring, reduce water waste, and boost yields, making rice farming more efficient and climate-resilient.

4.**Assertion (A):** Indian farmers often remain in debt.

Reason (R): Crop failure and low income make loan repayment difficult.

- A. Both A and R are true, and R is the correct explanation of A.
- B. Both A and R are true, but R is not the correct explanation of A.
- C. A is true, but R is false.
- D. A is false, but R is true.

Answer: A. Both A and R are true, and R is the correct explanation of A.

5.Raju is a small farmer in a village. He depends on rainfall for irrigation. Due to irregular monsoon and rising fertilizer prices, his crop production has reduced. He borrowed money from local moneylenders at high interest rates.

- A. Identify any two challenges faced by Raju.
- B. How does irregular rainfall affect farmers?
- C. Suggest one government measure that can help farmers.
- D. Why do farmers fall into debt traps?

Hint-

- A. Irregular rainfall
Rising fertilizer prices
- B. Irregular rainfall may lead to crop failure and low production.
- C. The government can provide crop insurance, subsidies, or irrigation facilities.
- D. Farmers borrow money at high interest rates and are unable to repay loans due to low income.

CHAPTER-5

MINERALS AND ENERGY RESOURCES

GIST OF THE CHAPTER-

Mineral: A homogenous, naturally occurring substance with a definable internal structure.

NON METALLIC MINERALS

Mica

- Splits into thin sheets, excellent electrical insulator.
- Found in Jharkhand (Koderma belt) Rajasthan (Ajmer), A.P (Nellore)

Limestone

- Used in cement, iron smelting.
- Found in sedimentary rocks.

NON-METALLIC MINERALS-

Mica	Splits into thin sheets, excellent electrical insulator. Found in Jharkhand (Koderma belt), Rajasthan (Ajmer), A.P (Nellore).
Limestone	Used in cement, iron smelting. Found in sedimentary rocks.

Found in sedimentary rocks.

Conventional Energy Resources

ENERGY SOURCE - NON CONVENTIONAL

ENERGY SOURCE - NON-CONVENTIONAL

Biogas

- Produced from shrubs, farm, animal, and human waste.
- Biogas has higher thermal efficiency than kerosene or dung cakes.
- Plants set up at municipal, cooperative, and individual levels.
- Gobar gas plants (cattle dung-based) are common in rural India.
- Dual benefits: energy and improved manure quality.
- Reduces deforestation and promotes soil health.

Tidal

- Generated using oceanic tides via floodgate dams.
- Suitable sites in India:
 - Gulf of Khambhat (Gujarat)
 - Gulf of Kutch (Gujarat)
 - Sunderban Delta (West Bengal)

Geothermal

- Utilizes Earth's internal heat to generate electricity.
- Hot water and steam from geothermal areas drive turbines.
- Experimental sites in India:
 - Parvati Valley, Manikaran (Himachal Pradesh)
 - Puga Valley (Ladakh)

Nuclear

- Produced by altering the atomic structure, releasing heat used to generate electricity.
- Uranium and Thorium are key resources found in:
 - Jharkhand
 - Aravalli ranges (Rajasthan)
 - Monazite sands of Kerala (rich in Thorium)

Solar

- India, being tropical, has high solar energy potential.
- Photovoltaic cells convert sunlight into electricity.
- Widely used in rural/remote areas.
- Helps reduce dependence on firewood and dung, supporting environmental conservation and better manure supply.

Wind

- Major wind farm cluster: Nagarcoil to Madurai (Tamil Nadu)
- Notable sites: Nagarcoil and Jaisalmer

Nuclear	● Produced by altering the atomic structure, releasing heat used to generate electricity. ● Uranium and Thorium are key resources found in: ● Jharkhand ● Aravalli ranges (Rajasthan) ● Monazite sands of Kerala (rich in Thorium)
Solar	● India, being tropical, has high solar energy potential. ● Photovoltaic cells convert sunlight into electricity. ● Widely used in rural/remote areas. ● Helps reduce dependence on firewood and dung, supporting environmental conservation and better manure supply.

MULTIPLE CHOICE QUESTIONS (1 marks)

Q1. Choose the correct option

- A. Igneous - Most minerals are deposited and accumulated here
 - B. Sedimentary - Formed by cooling and solidification of magma or lava
 - C. Metamorphic - Formed by the alteration of existing rocks due to heat and pressure
- Ans-D. Metamorphic - Formed by the alteration of existing rocks due to heat and pressure

Q3. Data Interpretation Question

Source of Energy	Percentage Usage
Coal	55%
Petroleum	30%
Solar Energy	10%
Wind Energy	5%

Q4.

- A. Which source of energy is used the most?
- B. Which are the non-conventional sources in the table?
- C. Why should India increase the use of renewable resources?
- D. Mention one disadvantage of coal.

Answers:

- A. Coal.
- B. Solar energy and wind energy.
- C. To reduce pollution and conserve exhaustible resources.
- D. Coal causes air pollution.

Q5. A student suggests that every house should install solar panels on rooftops.

- A. Do you agree with the student? Give one reason.
- B. How can solar energy help rural areas?
- C. Mention one limitation of solar energy.
- D. Name one device that works on solar energy.

Answers: A. Yes, because it reduces dependence on fossil fuels.

- B. It provides electricity in areas with limited power supply.
- C. Solar energy depends on sunlight and weather conditions.
- D. Solar cooker or solar heater.

SHORT ANSWER TYPE QUESTIONS – (3 marks)

Q1. Suggest which energy sources should be promoted and justify your choice by comparing conventional and non-conventional sources.

Hint: Non-conventional sources like solar and wind should be promoted as they are renewable, eco-friendly, and reduce dependence on fossil fuels.

Q2. If mineral resources were to run out in 50 years, how would it affect industries, transportation, and daily life? Propose creative strategies that society could adopt to avoid this crisis.

Hint: Industries, transport, and daily life would suffer; society must adopt recycling, alternative materials, and renewable energy to prevent crisis.

LONG ANSWER TYPE QUESTIONS (5 marks)

Q1. Coal is one of India's most vital energy resources. Analyze how the uneven distribution of coal affects regional development and suggest innovative ways to ensure energy equity across the country.

Hint: Uneven coal distribution causes regional disparities; promoting renewables, decentralized energy systems, and efficient grid networks can ensure national energy equity.

Q2. India is a tropical country with abundant sunlight. Critically evaluate how solar energy can revolutionize rural development, reduce environmental degradation, and contribute to India's sustainable growth. Suggest strategic steps to make it accessible and affordable for all.

Hint: 1. Solar energy can power rural homes, 2. Reduce firewood use, 3. Cut emissions,4. Boost green jobs 5. Subsidies and awareness can ensure accessibility.

HOTS-

A factory uses large amounts of coal for energy. The nearby area faces severe air pollution problems.

Questions:

- A. Which pollutant is mainly released by burning coal?
- B. How does air pollution affect human health?
- C. Suggest two measures to reduce pollution caused by industries.
- D. Why is it necessary to shift towards clean energy resources?

Hint:

- A. Burning coal mainly releases carbon dioxide, smoke, and harmful gases like sulphur dioxide.
- B. Air pollution causes breathing problems, asthma, lung diseases, and irritation in the eyes and throat.
- C. 1. Use cleaner fuels and renewable sources of energy.
2. Install pollution-control devices and filters in factories.
- D. It is necessary to reduce pollution, protect the environment, conserve exhaustible resources, and ensure sustainable development for future generations.

CHAPTER-6

MANUFACTURING INDUSTRIES

GIST OF THE CHAPTER

No.	Topic	Details
1	Definition	The production of goods in large quantities after processing raw materials into more valuable products.
2	Importance of Manufacturing	• Adds value to raw materials • Produces agriculture by procuring tools and equipment • Provides employment in both urban & rural areas • Increases national income & exports
3	Types of Manufacturing Industries	• Agro-based – Use agricultural products (e.g. cotton, jute, sugarcane) • Mineral-based – Use minerals • Forest-based – Use wood, lac, etc.
4	Factors Affecting Location	• Raw Material – Availability & cost • Power Supply – Electricity, coal, oil, etc. • Jute Industry – Mainly in West Bengal • Iron & Steel Industry – Backbone of modern Industry: Jamshedpur, Bhilai • Cement Industry – Using limestone • Capital – Investment availability
6	Major Manufacturing Industries in India	• Contributes ~ 27% to GDP • Provides jobs to millions • Boosts exports (engineering goods, textiles, gems) • Supports agriculture & service sectors
7	Contribution to National Economy	• Use oil-gas instead of coal • Afforestation around industrial areas • Effluent treatment plants. • Government regulations (Environment Protection Act)
8	Measures to Control Pollution	• Use oil-gas instead of coal • Afforestation around industrial areas • Effluent treatment plants • Government regulations (Act) • Public awareness and green

CLASSIFICATION OF INDUSTRIES-

CLASSIFICATION OF INDUSTRIES

On the Basis of Source of Raw Materials

Agro-based: Use agricultural products as raw materials.
Examples: Cotton, Wool, Jute, Silk textile, Sugar, Tea & Coffee, Edible oil.

Mineral-based : Use minerals as raw materials.
Examples: Iron & Steel, Copper Smelting, Aluminium Smelting

On the Basis of Capital Investment

Small Scale: Requires low capital investment.

Large scale: Industries with huge investment, advanced machinery, large workforce.

According to Main Role

Basic/Key: Provide raw materials for other industries.
Examples: Iron & Steel, Copper Smelting, Aluminium Smelting.
Consumer : Produce goods for direct use by consumers.
Examples: Sugar, Toothpaste, Paper, Sewing machines, Fans

On the Basis of Ownership

Public Sector: Owned and operated by the government.
Private Sector: Owned by individuals or groups.
Joint Sector: Owned and operated jointly by the government and private entities.
Co-operative Sector: owned by producers or workers

Textile industry -
Centers: Mumbai,

Types of Pollution Caused by Industries

01

Air Pollution

1. Industries release smoke and harmful gases into the air.
2. Burning of coal and petroleum increases pollution.
3. Pollutants include carbon dioxide, sulphur dioxide, and smoke particles.

02

Water Pollution

1. Industrial waste and chemicals are often discharged into rivers and lakes.
2. Polluted water harms aquatic life and affects human health.
3. Oil spills and toxic chemicals contaminate water resources.

03

Soil Pollution

1. Industries dump solid waste and harmful chemicals on land.
2. Chemicals reduce soil fertility and damage crops.
3. Toxic waste can enter the food chain through plants.

04

Noise Pollution

1. Machines, generators, and factory operations create loud noise.
2. Continuous noise affects hearing and causes stress.
3. It disturbs both humans and animals.

INDUSTRIAL POLLUTION: CAUSES, SOURCES, AND IMPACTS

AIR POLLUTION

CAUSES & MAJOR POLLUTANTS

Caused by the presence of high proportion of undesirable gases: Sulphur Dioxide (SO₂), Carbon Monoxide (CO), Particulate Matter (PM), and Nitrogen Oxides (NO_x).

MAJOR SOURCES

Chemical and paper factories, brick kilns, oil refineries, and smelting plants.

WATER POLLUTION

CAUSES & MAJOR WASTES

Caused by organic and inorganic industrial wastes and effluents discharged directly into rivers, lakes, and water bodies.

MAJOR INDUSTRIES

Paper, pulp, textile, chemical, petroleum refineries, tanneries, and electroplating industries.

SOIL POLLUTION

CAUSES & WASTE TYPES

Caused by dumping of industrial wastes: non-biodegradable wastes like glass, harmful chemicals, industrial effluents, and packaging materials.

MAJOR IMPACTS

Pollutants seep into the soil, degrading land fertility and contaminating the groundwater table.

NOISE POLLUTION

PRIMARY SOURCES

Industrial machinery, high-powered generators, pneumatic drills, saws, and various construction and demolition activities.

KEY HEALTH EFFECTS

Causes irritation, anger, and stress; hearing impairment; increased heart rate, and high blood pressure (hypertension).

CONTROL OF ENVIRONMENTAL DEGRADATION

MINIMISING WATER USE

(i) REUSING & RECYCLING:

Successive stages in two or more processes.

(ii) RAINWATER HARVESTING:

Harvesting of rainwater to meet water requirements.

TREATMENT OF INDUSTRIAL EFFLUENTS

(a) PRIMARY TREATMENT (Mechanical):

Screening, grinding, flocculation.

(b) SECONDARY TREATMENT (Biological):

Process involving microorganisms.

(c) TERTIARY TREATMENT (Advanced):

Biological, chemical, or physical process, involves recycling of wastewater.

OTHER MEASURES

REGULATE GROUNDWATER USE

legally, where threat exists.

AIR POLLUTION CONTROL:

Fitting smoke stacks with electrostatic precipitators, fabric filters, scrubbers, and inertial separators.

USE CLEANER FUELS

(e.g., oil or gas instead of coal).

MULTIPLE CHOICE QUESTIONS-

Q1. **Assertion (A):** The electronic industry plays a crucial role in the development of modern communication and computing devices.

Reason (R): Telephones, computers, and other digital devices are primarily manufactured by the steel and aluminum smelting industries.

Options:

- (a) Both A and R are true, and R is the correct explanation of A.
- (b) Both A and R are true, but R is not the correct explanation of A.
- (c) A is true, but R is false.
- (d) A is false, but R is true.

Correct Answer: (c) A is true, but R is false.

Q2. Ravi is designing a smart classroom that includes interactive digital boards, video conferencing tools, and computer-based learning systems. To source the necessary hardware like tablets, communication devices, and control panels, which industry should he primarily approach?

- (a) Textile
- (b) Electronic
- (c) Mining

(d) Construction

Correct Answer: (b) Electronic

SHORT ANSWER TYPE QUESTIONS

Q1. A steel factory was established near iron ore and coal mines. This reduced transportation costs and ensured regular supply of raw materials.

Questions:

- A. Why are steel industries located near raw material sources?
- B. Name two raw materials required for the steel industry.
- C. How does availability of raw materials reduce production cost?
- D. Mention one disadvantage if industries are located far from raw materials.

Hints-

- A. Steel industries require large quantities of raw materials, so they are located near mines to reduce transport costs.
- B. Iron ore and coal.
- C. Transportation expenses become lower and supply becomes easier.
- D. Production cost increases due to higher transportation expenses.

CASE STUDY BASED QUESTIONS

India's rapid industrial growth has boosted the economy but caused serious pollution of air, water, land, and noise. Industries like chemical factories, thermal power plants, tanneries, and refineries release harmful gases, toxic wastes, and solid pollutants. These pollutants affect human health, aquatic life, soil fertility, and cause stress through noise pollution. Thermal pollution raises water temperature, harming aquatic ecosystems, while toxic waste contaminates soil and groundwater.

Questions:

- (a) How does air pollution from industries impact human health and the environment? Give two examples.
- (b) Explain how thermal pollution affects aquatic life and suggest one way to reduce it.
- (c) Why is soil pollution closely linked to water pollution? Provide one example from industries.
- (d) Propose two simple measures industries can take to reduce noise pollution and improve workers' health.

LONG ANSWER TYPE QUESTIONS

Q1. Why do you think stricter environmental regulations alone are not always enough to reduce industrial pollution? What else is needed?

Hint: Stricter regulations aren't enough because enforcement is often weak; awareness, technology upgrades, and industry responsibility are also essential for real impact.

Q2. Industries provide jobs but also harm the environment. How should governments balance economic growth with environmental protection?

Hint: Governments should promote green technologies, enforce eco-friendly laws, and offer incentives for sustainable practices to balance growth with environmental protection.

Q3. Imagine your school is launching a campaign to educate industries about pollution control. What creative methods (like posters, slogans, or events) would you use to raise awareness?

Hint: We would use interactive street plays, eco-themed posters, catchy slogans like "Profit with Planet," and host green innovation competitions for awareness.

HOTS-

A food processing industry is located near fruit-growing areas instead of large cities.

- A. Why is this location suitable for the industry?
- B. How does it benefit farmers?
- C. What problems may arise if the factory is located far from raw material sources?
- D. Suggest one more factor important for industrial location.

Hints:

- A. Fruits are perishable and need quick processing.
- B. Farmers get a nearby market and reduced transport costs.
- C. Raw materials may spoil and transportation costs increase.
- D. Availability of transport or labor.

FORMS OF POWER SHARING-

Power sharing is desirable

MULTIPLE CHOICE QUESTIONS- (1 marks)

1.Assertion (A): Belgium avoided conflict by adopting a complex system of power sharing.

With reference to Sri Lanka:

- In Sri Lanka, the **Sinhala majority** government adopted policies that favored them over the **Tamil minority**.
- The **Sinhala Only Act (1956)** made Sinhala the official language, disadvantaging Tamils.
- Preference was given to Sinhalese in **jobs and education**.
- These policies made Tamils feel **alienated and discriminated against**.
- This led to **tensions, protests, and eventually a long civil war**.
- **CASE BASED QUESTIONS-**
- **1-Read the following passage and answer the questions that follow:** (1+1+2=4)
- "Belgium is a small country in Europe with a complex power-sharing arrangement. The country is home to two major ethnic groups: the Dutch-speaking community, which forms the majority, and the French-speaking community, which forms a significant minority. To ensure peace and harmony between these two communities, Belgium's government has implemented a unique power-sharing system. This system includes equal representation in the central government, special laws that require the consent of both groups for any decisions, and a community government that addresses cultural, educational, and language issues. On the other hand, Sri Lanka, which gained independence in 1948, adopted a majoritarian approach. The Sinhalese community, which is in the majority, dominates the political scene, often sidelining the Tamil minority. This approach has led to tensions, conflicts, and demands for greater autonomy from the Tamil-speaking population."

Q.i. What kind of power-sharing system does Belgium have, and how does it help maintain peace among its communities?

Q.ii. What lessons can Sri Lanka learn from Belgium's power-sharing model to resolve its ethnic conflicts?

Q.iii. How does the concept of community government in Belgium contribute to accommodating cultural differences?

LONG ANSWER TYPE QUESTIONS (5 marks)

1. What are the different forms of power sharing?

ANS 1. Horizontal Power Sharing

Power is shared among different organs of government — **Legislature, Executive, and Judiciary**.

Each organ checks the other. (Example: India)

2. Vertical Power Sharing

Power is divided among different levels of government — **Central, State, and Local governments**.

(Example: India's federal system)

3. Power Sharing among Social Groups

Power is shared among different **social groups** like religious or linguistic groups.

This can be done through **community government or reservation**. (Example: Belgium)

4. Power Sharing among Political Parties, Pressure Groups and Movements

Different political parties and groups share power by participating in elections and decision-making.

This ensures representation of different opinions.

2. Compare the power-sharing arrangements of Belgium and Sri Lanka.

In **Belgium**, power is shared among different levels of government. It has a **federal system** where the central government and state (regional) governments share powers. Belgium also gives **equal status to different language groups** (Dutch, French, and German). Special arrangements like **community government** were made to protect the rights of both major communities. This helped maintain peace and unity.

In **Sri Lanka**, power was concentrated in the hands of the majority community. It is mainly a **unitary system** where the central government has more power. Policies such as making **Sinhala the only official language** and giving preference to Sinhalese in jobs and education ignored the Tamil minority. This led to dissatisfaction, tensions, and eventually a civil war.

CHAPTER-2

Federalism: -

Types of Government

TYPES OF GOVERNMENT

Note-Both these govts, are separately answerable to the people.

Features of Federalism:-

- ❖ Two or more levels of government
- ❖ Different tiers of governments rule over same citizen.
- ❖ Each level has its own jurisdiction (power) Jurisdictions Specified in the Constitution
- ❖ Changes in the provisions of Constitution require the consent of both the gov't's.
- ❖ Courts acts as an umpire if any dispute arise between the levels of government.
- ❖ Sources of revenue specified (Financial autonomy) - Every state has its own revenue to look after its welfare.
- ❖ **Dual objective** - Promote the unity of the country by accommodating regional diversity

Types of Federation-

WHAT MAKES INDIA A FEDERAL COUNTRY-

- The constitution of India declared India as a “union of states”
- The constitution provides for a three-fold distribution of legislative powers.

How is Federalism practiced?

LINGUISTIC STATES-

- People who spoke the same language lived in the same state.
- Some states were created not on the basis of language, but to recognize differences based on culture, ethnicity or geography.
- Formation of linguistic states has made the country united, made administration easier.

LANGUAGE POLICY-

- Did not give status of National language to any one language.
- Flexibility is shown. The use of English along with Hindi for official purposes is agreed.
- States too have their own official languages

CENTRE STATE RELATIONS-

COALITION GOVERNMENT –

Decentralization- Decentralization is the process in which powers and decision-making authority are transferred from the central government to lower levels of government such as state, district, and local bodies, so that local people can take decisions related to their own area.

Reason for Decentralization in India -

- Large country- Large No. of problems and issues
- Three-Tier govt- Local govt. formed
- Local people-better knowledge of local problems
- Democratic participation for local self-govt.

Steps taken to make third-tier more powerful –

- 1992-Amendment-third tier made-more powerful
- Regular elections
- Reservation of seats for SC, ST.
- OBC Reservation for women
- Creation of state EC to control elections
- State govt to share power & revenue with local govt.

Formation of Panchayati Raj (Rural local government):-

- Group of each village have a panchayat
- President or Sarpanch
- Directly elected by the people
- Works under the supervision of Gram Sabha (all voters of the village)
- Meets twice or thrice a year to approve the budget of Gram Panchayat

 c) A – 4, B – 1, C – 2, D – 4
 d) A – 1, B – 2, C – 4, D – 3

Ans- b)-A – 3, B – 4, C – 2, D – 1

Q2- Sheena grandmother told her that local government was very different before 1992. Which of the following changes she observed after 1992 Amendment?

- State government shared more powers with local governments.
 - Centre election commission will conduct election.
 - At least one third post of head of panchayat are reserved for women.
- a) 1 and 2 only b) 1 and 3 only c) 2 and 3 only d) All of the above

Ans-b)-1 and 3 only

Q3- **Assertion:** Holding Together Federation do not give equal powers to all states

Reason: Some states are granted special status.

- a-Both A and R are true, and R is the correct explanation of A.
 b-Both A and R are true, but R is not the correct explanation of A.
 c-A is true but R is false.
 d-A is false but R is true.

PICTURE BASED QUESTION-

Q.2- Write the meaning of above Cartoon.

- A) States demand less power
- B) States plead for more power
- C) States welcome to Union Gov.
- D) None of these

Ans- B) States plead for more power

SHORT ANSWER TYPE QUESTIONS (3 marks)

Q.1- "Imagine you are explaining the concept of federation to students from two different countries. How would you describe the two main ways in which federations are formed, using suitable examples?"

ANS- Types of Federation-

Q.2 If the Constitution does not clearly define powers between Centre and States, what problems may arise?

ANS-It may create conflicts between Centre and States.

There can be confusion about who has the authority to make decisions.

It may lead to disputes and instability in governance.

The balance of power may be disturbed.

It can result in centralisation of power, weakening federalism.

CASE BASED QUESTIONS- (4 marks)

Read the given source and answer the questions that follow :

The need for decentralisation was recognised in our Constitution. Since then, there have been several attempts to decentralise power to the level of villages and towns. Panchayats in villages and municipalities in urban areas were set up in all the States. But these were directly under the control of state governments. Elections to these local governments were not held regularly. Local governments did not have any powers or resources of their own. Thus, there was very little decentralisation in effective terms. A major step towards decentralisation was taken in 1992. The

Constitution was amended to make the third-tier of democracy more powerful and effective.

(1.1) At how many levels has decentralisation of power been done in the Indian Constitution?

(1.2) Explain the role of local self-government in solving problems.

(1.3) "Local government is the best way to realise one important principal of democracy, namely local self-government" Explain the statement.

Q.2 Why is it said that politics influences caste, and caste also influences politics? Explain with examples.

ANS- 1) **How politics influences caste:**

Political parties and elections change the way caste works in society.

- Political leaders try to **gain support from different caste groups**.
- They give **reservations, welfare schemes, and representation** to weaker caste groups.
- This increases awareness and unity among caste groups.
- Example: After independence, the government introduced **reservations in education and jobs** for Scheduled Castes (SC), Scheduled Tribes (ST), and Other Backward Classes (OBC). This changed the social position of many caste groups.

2) How caste influences politics:

Caste plays an important role in elections and political decisions.

- Political parties often **select candidates based on caste composition** of a constituency.
- People may vote for a candidate from their own caste.

Q.1-"Imagine you are forming a new political party to contest student council elections. What three main components will you include to make your party effective and representative? Explain with reasons."

ANS-1)The leaders,

2) The active members

3) the followers

SHORT ANSWER TYPE QUESTIONS- (3 marks)

Q.1-Describe any three main features of a two-party system,

HINTS: Three main features of a two-party system are as follows.

- Power usually changes between two parties, while other political parties may exist.
- The party that wins the majority forms the government, while the other forms the major opposition.

PICTURE BASED QUESTION-

Q.1 Which symbol belong from Regional Party?

Ans -.....

LONG ANSWER TYPE QUESTIONS- (5 marks)

Q.1-What is meant by a national political party? State the conditions required to be a national political party.

HINTS- A national political party is a party that is present in several or all units of the federation.

- ❖ In other words, it is a country-wide party.
- ❖ It has its units in various states.
- ❖ By and large, all these units follow the same policies.
- ❖ The following are the conditions required for a party to become a national party.

- ❖ A party has to secure at least six per cent of total votes polled in the Lok Sabha elections or Assembly elections in four states.
 - ❖ It has to win at least four seats in the Lok Sabha to be recognised as a national party
- Q.2 “Political Parties perform a series of functions in democracy” Explain the statement with examples.

ANS-1. Contesting Elections

Political parties select candidates and contest elections.

- **Example:** In India, BJP, INC, and other parties field candidates in Lok Sabha and Vidhan Sabha elections.

2. Forming Government

The party that wins majority seats forms the government.

- **Example:** After winning elections, the **Bharatiya Janata Party (BJP)** formed the central government in 2019 and 2024.

3. Making Policies and Laws

The ruling party makes policies and laws for the country.

- **Example:** The government introduces schemes like **PM Kisan Yojana** or **Swachh Bharat Abhiyan** through its policy decisions.

4. Opposition Role

Opposition parties criticize the government and keep it accountable.

- **Example:** Parties like INC or other opposition groups question government policies in Parliament.

5. Representing Public Opinion

Political parties express the needs and demands of people.

- **Example:** Farmers’ issues, unemployment, and price rise are raised by different parties in Parliament.

6. Creating Awareness

They educate voters about political issues and government programmes.

- **Example:** During elections, parties conduct rallies and campaigns to inform people about their promises.

Q.3 “There are many challenges before the political parties” Examine the statement.

1. Lack of Internal Democracy

Political parties often do not function in a democratic manner inside the party.

- Decisions are taken by top leaders.
- Ordinary members have little role in selecting leaders or candidates.

Example: Candidates for elections are usually selected by senior leaders rather than through internal voting.

2. Dynastic Succession

In many parties, leadership is passed within families instead of being based on merit.

- This limits opportunities for capable party workers.

Example: Children of senior leaders often get leadership positions easily.

3. Money and Muscle Power

Elections require huge money.

- Parties depend on rich candidates and donations.
- Sometimes criminals also enter politics.

Example: Wealthy candidates often get party tickets due to their financial strength.

4. Lack of Meaningful Choice for Voters

Different political parties sometimes offer similar policies and programmes.

- Voters feel there is little real difference between parties.

Example: Many parties support similar welfare schemes during elections.

5. Defection (Party Switching)

Elected representatives often change parties after elections for personal gain.

- This creates instability in governments.

Example: MLAs or MPs joining the ruling party to get power or benefits.

6. Negative Politics and Corruption

Some parties use unfair practices like false propaganda or corruption.

- This reduces trust in democracy.

Q.4 “Electoral reforms and political party reforms must go together.” Analyze.

ANS-

- Prevented defection (changing party after elected) – if they do so they will lose the seat.
- Order by Supreme Court to reduce the influence of money and criminals- Candidate must file affidavit giving details of criminal cases pending.
- Political parties should file their Income Tax returns.

CHAPTER-5 OUTCOMES OF DEMOCRACY

DEMOCRACY- It is ruled by elected representative of the people.

FEATURES OF DEMOCRACY –

MERITS AND DEMERITS OF DEMOCRACY -

MERITS AND DEMERITS OF DEMOCRACY -

1. If we deeply and seriously analyse the democratic system and its ideology, we shall find that it is the only democratic system which ensures people's active participation.

2. Therefore over a hundred countries of the world claim and practice some kind of democratic politics.

Accountable Government

Responsible Government

Legitimate Government

1. Democracy is such a political system in which citizens have the right to choose and control their government.

2. The basic outcome of democracy is that it should produce an accountable government. It should also be responsible to the needs and hopes of the citizens.

3. The main basis of a democratic system is mutual discussion and logical debate. If a government takes decisions very fast, but those decisions are not accepted by the people, problems may arise.

ECONOMIC GROWTH AND DEVELOPMENT -

1. Despite having a good government in a democratic system, it is not necessary that there should always be development.
2. If we analyse all democracies and dictatorships between 1950 and 2000, we shall find that the rate of economic growth is slightly better in dictatorships.
3. Despite relatively low economic growth in a democracy, democracy is preferred all over the world. The main reason for this is that the democratic system is an open system in which the fundamental rights and freedoms of the people are respected.

REDUCTION OF INEQUALITY AND POVERTY-

- ❖ In theory, democracy promotes equality, but in practice: Wealth remains concentrated in the hands of a few.
- ❖ Disadvantaged groups (SCs, STs, women, minorities) still struggle for equality.
- ❖ Democracies try to create laws and policies to reduce poverty, but success varies from country to country.
- ❖ *Example:* Programmes like MGNREGA in India aim to reduce poverty through guaranteed employment.

ACCOMMODATION OF SOCIAL DIVERSITY –

ACCOMMODATION OF SOCIAL DIVERSITY

1. Democracies generally accommodate various social divisions and conflicts. Political, economic and social tensions and conflicts do not become explosive or violent due to democratic solutions.
2. As we know that no society can totally and permanently resolve conflicts and tensions among different groups. Democracy is best suited to solve these differences. On the other hand, non-democratic governments often turn a blind eye to solve these problems.
3. Nevertheless, the example of Sri Lanka reminds us that a democracy must fulfill two conditions in order to negotiate these difference.
(A) We should know government functioning the majority always needs to work with the minority on general view of majority and minority are not always permanent.
(B) It is also essential that rule by majority does not become rule by majority community in terms of race, religion, and linguistic group, etc. Democracy can remain a democracy only when every citizen has the chance to be part of the majority at some point of the other. If any person of persons are denied to be part of the majority on the basis of birth, it would be a violation of democracy.

DIGNITY AND FREEDOM OF THE CITIZENS-

1. Democracy is considered superior to any other form of government in promoting dignity and freedom of the individual.
2. For every person, respect, freedom and equality are the main basis of democracy. But it is quite difficult to establish the principles of equality for individuals in those societies which have not been free for a long time.
3. History is the witness to the fact that most of the societies have been dominated by males. If we want to establish a truly democratic society, we have to give equal status to both women and men.

FINAL CONCLUSION:-

- ❖ Democracy is not perfect, but it is the best available system.
- ❖ It ensures people's participation, freedom, justice, and dignity, even if it struggles with inequality and slow decision-making.

MULTIPLE CHOICE QUESTIONS (1 marks)

Q.1-On the basis the given picture, consider the correct statement.

- A) People having dream of having such a big telescope
- B) Government knows the details of people far better than people knows about the government.
- C) People trying to find out the process of decision making by the democratic government.
- D) Government organizes an event.

Ans- B) Government knows the details of people far better than people knows about the government.

Q.2- Which of the following statements are true about the democratic government?

- a) Democratic government is a legitimate government.
- b) Democratic government is an accountable and responsive government.
- c) Democratic government is the people's own government.
- d) All of the above.

Answer: d) All of the above.

SHORT ANSWER TYPE QUESTION (3 marks)

Q.1- "There is overwhelming support for the idea of democracy all over the world." Support the statement.

Answer: There is an overwhelming support for the idea of democracy all over the world because: * A democratic government is people's own government.

- * The evidence from South Asia shows that the support exists in countries with democratic regimes.
- * People wished to be ruled by representatives elected by them.

Q.2 "Complaint are the testimony to the success of Democracy." explain the statement with example.

1. **Ans-Freedom to Express Dissatisfaction**

In a democracy, citizens can freely express their complaints, which shows that people have freedom of speech.

2. **Government is Accountable**

Complaints indicate that people can question the government, which proves that leaders are responsible to citizens.

3. **Scope for Improvement**

Complaints help the government identify problems and improve its policies and services.

Example: People in India often complain about electricity, roads, or corruption through media, RTI, and public forums, which helps the government take corrective action.

CASE BASED QUESTIONS (4 marks)

Q.1 Read the extract given below and answer the questions that follow:

In a democracy, we are most concerned with ensuring that people will have the right to choose their rulers and people will have control over the rulers. Whenever possible and necessary, citizens should be able to participate in decision making, that affects them all. Therefore, the most basic outcome of democracy should be that it produces a government that is accountable to the citizens, and responsive to the needs and expectations of the citizens. Some people think that democracy produces less effective government. It is, of course, true that non-democratic rulers do not have to bother about deliberation in assemblies or worry about majorities and public opinion. So, they can be very quick and efficient in decision making and implementation. Democracy is based on the idea of deliberation and negotiation. So, some delay is bound to take place. Because it has followed procedures, its decisions may be both more acceptable to the people and more effective. Moreover, a citizen who wants to know if a decision was taken through the correct procedures can find this out.

She has the right and the means to examine the process of decision making. This is known as transparency.

Q.1.1 What is meant by transparency in a democracy?

Q1.2 Why are non-democratic governments quick in decision making and implementation?

Q 1.3 “In comparison to non-democratic governments, decision of democratic government takes time”. Does democracy pay its price explain.

LONG ANSWER TYPE QUESTIONS (5 marks)

Q.1- Explain the expected outcome from democracy? Discuss it.

1. Ans- Accountability of Government

Democracy ensures that the government is answerable to the people through elections and public opinion.

2. Better Decision-Making

Decisions are taken after discussion and consultation, making them more balanced and effective.

3. Protection of Rights

It safeguards fundamental rights like freedom, equality, and justice for all citizens.

4. Peaceful Conflict Resolution

Democracy provides legal and peaceful ways to solve social and political conflicts.

5. Welfare and Development

Democratic governments work for the development of society through schemes in education, health, and employment

Q.2 “Dignity and freedom of the the citizens are the essence of democracy” Examine the statement.

1. Ans- Equal Respect for All Citizens

Democracy ensures that every citizen is treated with dignity, regardless of caste, religion, gender, or status.

2. Fundamental Rights Protection

Citizens enjoy basic freedoms like speech, expression, and religion which protect their dignity.

3. Freedom of Choice

People have the freedom to choose their leaders, profession, and way of life.

4. No Discrimination

Democracy does not allow discrimination, ensuring equality and respect for everyone.

5. Active Participation in Decision-Making

Citizens can participate in elections and public discussions, which enhances their sense of dignity and freedom.

Q.3 “The blend of accountability responsiveness and legitimacy forms the foundation of a democratic Government” Examine the statement.

1. Ans- Accountability of Government

In a democracy, the government is answerable to the people through elections and can be removed if it does not perform well.

2. Responsiveness to People’s Needs

Democratic governments listen to citizens’ needs and demands of people and try to solve them through policies and welfare schemes.

3. Legitimacy through Elections

Governments are formed through free and fair elections, which gives them the legal right to rule.

5. Public Participation and Trust

Because people choose their leaders, they trust the system and actively participate in governance.

6. Balance of Power and Responsibility

The combination of accountability, responsiveness, and legitimacy ensures that power is used responsibly for public welfare.

CHAPTER-1 DEVELOPMENT

HOW TO COMPARE DIFFERENT COUNTRIES OR STATES

World Bank use income criteria for comparing countries, their income is considered to be one of the most important attributes. Countries with higher income are considered more developed than others with less income.

For comparison between countries, total income is not sufficient to measure a country therefore countries with different populations, may affect the average income /PCI. HDI, Literacy, Public facilities may also be considered for measuring a country.

Hence, we compare the average income which is the country income divided by its total population. The average income is also called per capita income.

World Bank

India's Per Capita Income USD \$ 1,100, and comes under lower middle-income groups

PUBLIC FACILITIES:

- ❖ Money in your pocket cannot buy all the goods and services that you may need to live well.
- ❖ Income by itself is not a completely adequate indicator of material goods and services that citizens are able to use.
- ❖ Normally, money cannot buy the pollution-free environment or ensure that you get unadulterated medicines unless you can afford to shift to a community that already has all these things.
- ❖ Money may also not be able to protect you from infectious disease unless the whole of your community takes preventive steps.
- ❖ Money can not buy itself social security, safety and defense mechanism.

HUMAN DEVELOPMENT

Criteria	Description	Indicators
Living Standard	Measures the economic well-being of individuals	Per capita Income
Health Status	Measures the overall health and longevity of the population	Life Expectancy
Educational Levels	Measures the access and quality of education	Literacy Rate and Enrolment Ratio

Explanation of some of the terms used in Human Development Index:

- Infant Mortality Rate (or IMR) indicates the number of children that die before the age of one year as a proportion of 1000 live children born in that particular year.
- Literacy Rate measures the proportion of literate population in the 7-and-above age group.
- Net Attendance Ratio is the total number of children of age group of 15-17 years attending school as a percentage of total number of children in the same age group

SUSTAINABILITY OF DEVELOPMENT:

1. Since the second half of the twentieth century, a number of scientists have been warning that the present type, and levels, of development are not sustainable.
2. In the case of groundwater, if we use more than what is being replenished by rain then we would be overusing these resources
3. Consequences of environmental degradation do not respect national or state boundaries; this issue is no longer region or nation-specific.

Multiple choice question (1 marks)

1. Read the following statements about Human Development and choose the correct option
(I) It is the composite Index prepared by United Nations Development Programme (UNDP).
(II) Parameters to measure it are Longevity, Literacy and Per Capita Income.
(III) Countries are ranked according to Developed and Low Developing countries.
(IV) World Bank also prepares report of Human Development on the basis of quality of Life.
(a) I and II
(b) II and III
(c) I and III
(d) II and IV

Answer: (a) I and II

2. Study the data given below:

Country	Total GDP	GDP Per Capita
Japan	\$4,872,415,104,315	\$38,214
Germany	\$3,693,204,332,230	\$44,680

Despite having a higher total income than Germany, Japan has a lower per capita income. What is the reason for this?

- (A) Japan has a more equitable distribution of income.
- (B) Germany has more rich people than poor people.
- (C) Japan has a smaller population than Germany
- (D) Japan has a bigger population than Germany.

Answer: (D) Japan has a bigger population than Germany.

SHORT ANSWER QUESTION (3 marks)

1. How does the Human Development Report give a holistic view of development?

Answer hints (1) per capita income (2) education indicators (3) health indicators.

State	Infant Mortality Rate per 1,000 live births (2020)	Literacy Rate %	Net Attendance Ratio (per 100 persons) secondary stage (aged 15–17 years) 2017–18
		2017–18	
Haryana	28	82	73
Kerala	6	94	94
Bihar	27	62	69

Sources : Economic Survey 2023–24, National Sample Survey Organisation (Report No. 585), National Statistical Office, Government of India; National Family Health Survey (NFHS-5) 2019–21 IIPS, Mumbai.

2. Analyze the data given above and answer the questions that follow
 1. Which state has highest literacy rate.
 2. Kerala has lowest infant mortality rate. What does it signify?
 3. According to the data above which state is best in human development index and why?

Hints 1. Kerala 2. Better health facilities. 3. Kerala Better HDI

TABLE 1.5 EDUCATIONAL ACHIEVEMENT OF RURAL POPULATION OF UTTAR PRADESH		
Category	Male	Female
Literacy rate for rural population	76%	54%
Literacy rate for rural children in age group 10-14 years	90%	87%
Percentage of rural children aged 10-14 attending school	85%	82%

3. Analyze the data given above and answers the following question

1. What is the percentage of female rural children in the age group of 10 to 14 years who are literate.

2. Analyze the reasons for more literacy in male than females.

HINT-1 76% 2. Poverty, Early Marriage, Security.

TABLE 1.6 SOME DATA REGARDING INDIA AND ITS NEIGHBOURS FOR 2023

Country	Gross National Income (GNI) Per Capita (2021 PPP \$)	Life Expectancy at birth	Mean Years of Schooling of People aged 25 and above	HDI Rank in the world (2021-22)
Sri Lanka	12,616	77.5	10.8	89
India	9,047	72	6.9	130
Myanmar	4,919	66.9	6.4	150
Pakistan	5,501	67.6	4.3	168
Nepal	4,726	70.4	4.5	145
Bangladesh	8,498	74.7	6.8	130

4.1 Nepal's life expectancy is 70.4 years, while India's is 72 years. What can be inferred?

- a) Nepal performs better in health than India
- b) India performs slightly better in health than Nepal
- c) Both countries are equal
- d) Nepal has higher income than India

4.2 Which country has the lowest mean years of schooling among the listed countries?

- a) Nepal b) Pakistan c) Myanmar. d) India

LONG ANSWER QUESTION (5 marks)

1. In a rural area, the government has increased per capita income through agricultural subsidies. However, the region still lacks basic public facilities like schools, hospitals, and clean drinking water.

Analyze how the absence of public facilities can impact the overall development of the region, despite an increase in income. Suggest measures to address this issue.

Answer hints - While agricultural subsidies can boost income, the lack of basic public facilities like schools, hospitals, and clean drinking water hinders overall development in rural areas. Even with increased income, a lack of access to education, healthcare, and safe water significantly impacts the quality of life and long-term sustainability of the region.

CHAPTER 2

SECTORS OF THE INDIAN ECONOMY

TOPICS: -

- The Indian economy can be classified into three main sectors based on the type of economic activities:

1. Primary Sector-It is related with natural resources. Like agriculture, fishing, forestry, mining, etc.

Farming

2. Secondary Sector-Involves manufacturing and industrial activities. Converts raw materials from the primary sector into finished goods. Examples Sugar, Cement, Iron and Steel industries etc.

Manufacturing of Sugar

3. Tertiary Sector - Also called service sector. Provides support services to primary and secondary sectors. Examples banking, education, transport, healthcare, etc.

Service Sector

TERTIARY SECTOR

THE SERVICE SECTOR

The tertiary sector includes all economic activities that provide services to people and businesses. It does not produce physical goods but supports and improves quality of life.

WHY THE TERTIARY SECTOR MATTERS

Generates employment

Drives economic growth

Improves quality of life

Supports all other sectors

Encourages innovation

Creates a developed nation

From small local services to global connections, the tertiary sector keeps the world moving forward.

COMPARING THE THREE SECTORS-

- Interdependence of Sectors- All sectors are interdependent.

Example: Farmers (Primary) use tractors (Secondary) and banking services (Tertiary).

Interdependence of sectors

- Historical changes in the sectors. At initial stage of development, primary sector was the important sector of economic. More than hundred years ago secondary sector became important. In the past hundred years Tertiary sector has become important.
- Rising importance of Tertiary sector in production. Over the forty years Tertiary sector has emerged as the largest producing sector in India.

At present importance of Tertiary sector

- Where are the most of the people working. More than half of the workers are working in primary sector.
- How to create more employment. Government can provide loan at low rate of interest, provide employment etc.
- Organized and Unorganized Sector

Organized Sector	Unorganized Sector
Registered with the government,	Not registered with Govt agencies
job security	Job insecurity
Medical leave/ Paid leave	No paid leaves
Fixed working hours	No fixed working hours
Fixed pay and regular pay	No regular & fixed pay
Allowances, Pensions and Gratuity	No provisions of any allowances or pensions

- How to protect workers in unorganized sector. Government should protect them.
 - Government should set a minimum wage.
 - Government may be able to offer loans.
 - Self-employed assistance by government. – S.H.G.
 - The government should be responsible for providing necessities like food, health care and education

SECTORS BY OWNERSHIP-

Public Sector	Private Sector
Owned by the government (e.g., Indian Railways).	Owned by individuals or companies (e.g., Tata Industries).

Global pollution is rising due to rapid economic growth, population increases, and insufficient environmental management. This poses serious health risks for people and ecosystems, particularly in low- and middle-income countries. Contributing to these challenges, the global economy relies on deeply intertwined supply chains, sustained by more than 100 billion tons of raw materials entering the system each year. Intensive material consumption depletes natural resources and causes negative environmental impacts at every stage of the product lifecycle. Global waste is expected to increase to 3.4 billion tons by 2050.

Pollution of all types hinders development outcomes. Exposure to air pollution, water pollution, and hazardous chemicals and wastes like mercury, lead and persistent organic pollutants (POPs) causes debilitating and fatal illnesses, creates harmful living conditions, and destroys ecosystems. Pollution undermines sustainable economic growth, exacerbates poverty and inequality in both urban and rural areas, and significantly contributes to climate change. Poor people, who cannot afford to protect themselves from the negative impacts of pollution, end up suffering the most. Pollution is the largest environmental cause of disease and premature death. It is estimated to be several times more deaths than from AIDS, tuberculosis, and malaria combined. Global health crises, such as the COVID-19 pandemic, are reminders of the strong linkages between environment and health and of the need to address such linkages systematically.

Sri Lanka emerged as an independent country in 1948. The leaders of the Sinhala community sought to secure dominance over government by virtue of their majority. As a result, the democratically elected government adopted a series of MAJORITARIAN measures to establish Sinhala supremacy. Over the years, it created feelings of alienation among the Sri Lankan Tamils. They felt that none of the major political parties led by the Buddhist Sinhala leaders was sensitive to their language and culture. As a result, the relations between the Sinhala and Tamil communities strained over time. On the other hand, the Belgian leaders took a different path. They recognised the existence of regional differences and cultural diversities. Between 1970 and 1993, they amended their constitution four times to work out an arrangement that would enable everyone to live together within the same country.

5B.	1. Sometimes new crops like potatoes could make the difference between life and death. It was with the introduction of the humble potato that Europe's poor began to eat well, eat better and live longer. 2. Ireland's poor peasants became so dependent on potatoes that when the potato crop was destroyed by disease in the mid-1840s, hundreds of thousands of peasants died of starvation	
6A.	1. Figure or Image – The identity of India came to be visually associated with the image of Bharat Mata. This image was created by Bankim Chandra Chattopadhyay. Rabindranath Tagore painted his famous image of Bharat Mata. In this painting, Bharat Mata is portrayed as an ascetic figure; she is calm, composed, divine and spiritual. 2. Songs – Bankim Chandra Chattopadhyay wrote 'VandeMataram' as a hymn to the motherland. It was included in his novel Anandmath and widely sung during the Swadeshi Movement in Bengal. 3. Folklore – Indian folklore was revived. In late-nineteenth-century India, nationalists began recording folk tales sung by bards and they toured villages to gather folk songs and legends. These tales gave a true picture of traditional culture. It helped to restore a sense of pride in our past. In Bengal, Rabindranath Tagore himself began collecting ballads, nursery rhymes and myths, and led the movement	3

	for folk revival. In Madras, Natesa Sastri published a massive four-volume collection of Tamil folk tales, The Folklore of Southern India. 4.– Flag (A). During the Swadeshi movement in Bengal, a tricolour flag (red, green and yellow) was designed. It had eight lotuses representing eight provinces of British India, and a crescent moon, representing Hindus and Muslims. (B). By 1921, Gandhiji had designed the Swaraj flag. It was again a tricolour (red, green and white) and had a spinning wheel in the centre, representing the Gandhian ideal of self-help. Carrying the flag, holding it aloft, during marches became a symbol of defiance. 5. Re – interpretation of History – Indians began looking into the past to discover India's great achievements. They wrote about art and architecture, Science and Maths, religion and culture, law, philosophy etc. Indians were asked to take pride in India's great achievements in the past and struggle to change the miserable conditions of life under British rule. 6B.	1. Salt became an effective tool of resistance against colonialism because of the following reasons: Gandhiji found in salt a powerful bond that would unite the nations as it – was consumed by all rich and poor alike. 2. Gandhiji's letter to Viceroy Irwin stated eleven demands. Most of them were of general interest but the most stirring was to abolish the salt tax imposed by the colonial government. 3. Irwin's unwillingness to negotiate forced Gandhiji to start his salt March which was joined by thousands. It developed the feeling of nationalism. 4. People in different parts of the country broke salt law and manufactured salt and demonstrated in front of government salt factories. 5. People unitedly followed Gandhiji's words. They refused to pay taxes, revenues, picketed liquor shops, boycotted foreign clothes, resigned from government jobs and violated forest laws. (Any three points to be considered)]	
7A.	1. In Britain the formation of the nation-state was not the result of a sudden upheaval or revolution. The primary identities of the people who inhabited the British Isles were ethnic ones - such as English, Welsh, Scot or Irish. 2. The Act of Union (1707) between England and Scotland resulted in the formation of the 'United Kingdom of Great Britain' meant that England was able to impose its influence on Scotland. Scotland's distinctive culture and political institutions were systematically suppressed. 3. The Scottish Highlanders were forbidden to speak their Gaelic language or wear their national dress and large numbers were forcibly driven out of their homeland. 4. The English helped the Protestants of Ireland to establish their dominance over a largely Catholic country. Catholic revolts against British dominance were suppressed. Ireland was forcibly incorporated into the United Kingdom in 1801. 5. The symbols of the new Britain - the British flag, the national anthem, the English language were actively promoted and the older nations survived only as subordinate partners in this union.	5

7B	1. The Bourbon dynasty, which had been deposed during the French Revolution, was restored to power, and France lost the territories it had annexed under Napoleon. 2. A series of states were set up on the boundaries of France to prevent French expansion in future. Thus the kingdom of the Netherlands, which included Belgium, was set up in the north and Genoa was added to Piedmont in the south. 3. Prussia was given important new territories on its western frontiers, while Austria was given control of northern Italy. 4. The German confederation of 39 states that had been set up by Napoleon was left untouched. In the east, Russia was given part of Poland while Prussia was given a portion of Saxony. 5. The main intention was to restore the monarchies that had been overthrown by Napoleon, and create a new conservative order in Europe.	
8.	8.1 Krishnaji wanted to publish significant information about societal developments in the areas of politics, science, and other fields in order to inform the public. 8.2 The media used to criticise and analyse government policies were local newspapers and political organisations. As a result, both of these served as the government's opposition. 8.3 Reasons for popularity of newspapers during 19th century are: i. The political developments in the country began to interest a sizable portion of society, and this information was skillfully presented in the newspapers. ii. Newspapers started to serve as a source for societal advancements in social, cultural, and scientific	(1+1+2=4)

14.	D – Tamil Nadu	1
15.	B - To provide better irrigation systems and sustainable water conservation practices for farmers.	1
16.	Climate and Irrigation: Haryana and Punjab have a well-developed irrigation system (e.g., canal irrigation from the Sutlej-Yamuna Link Canal), which allows for large-scale	2

	commercial cultivation of rice. The climate is suitable for high-yielding varieties, and irrigation ensures water availability. - In contrast, Odisha has a more monsoonal climate, and while rice is grown, the farming is often rainfed and primarily for local consumption. The lack of large-scale irrigation systems limits its commercialization. Economic Factors (Market Access): - In Punjab and Haryana, rice is grown for commercial purposes to meet national and international demand. The proximity to markets, government procurement systems, and well-developed transport networks enable these states to export surplus rice. - In Odisha, rice is mostly grown for personal or local use, with less access to large markets for profit-driven farming, making it a subsistence crop. Farming Practices: - In Punjab and Haryana, the use of modern farming techniques, machinery, and high-yielding varieties supports commercial rice cultivation. - In Odisha, rice farming is more traditional and focused on family sustenance rather than large-scale production, which reflects the subsistence nature of cultivation. Or any other relevant point(s) (Any 2 point to be considered out of which at least one should be related to climate and one economic)	
17A.	1. Odisha was the largest bauxite producing state in India in 2016-17. Panchpatmali deposits in Koraput district are the most important bauxite deposits in the state. 2. Significance: -It is used for power generation, -To supply energy to industry as well as for domestic needs. -India is highly dependent on coal for meeting its commercial energy requirements.e.g., in metallurgy - any other relevant point (at least 2) Variety of coal types- Coal, is found in a variety of forms depending on the degrees of compression and the depth and time of burial.	

	1. Peat - Decaying plants in swamps produce peat. Which has a low carbon and high moisture contents and low heating capacity. 2. Lignite - is a low grade brown coal, which is soft with high moisture content. The principal lignite reserves are in Neyveli in Tamil Nadu and are used for generation of electricity. 3. Bituminous coal-Coal that has been buried deep and subjected to increased temperatures. It is the most popular coal in commercial use. Metallurgical coal is high grade bituminous coal which has a special value for smelting iron in blast furnaces. 4. Anthracite -is the highest quality hard coal.	
18.	18.1 Due to intensive material production and consumption. 18.2 Manufacturing industries are a major cause for- 1) air pollution – Smoke is emitted by chemical and paper factories, brick kilns, refineries and smelting plants, and burning of fossil fuels in big and small factories that ignore pollution norms. Toxic gas leaks can be very hazardous with long-term effects. 2) Water pollution is caused by organic and inorganic industrial wastes and effluents discharged into rivers. The main culprits in this regard are paper, pulp, chemical, textile and dyeing, petroleum refineries, tanneries and electroplating industries that let out dyes, detergents, acids, salts and heavy metals like lead and mercury pesticides, fertilisers, synthetic chemicals with carbon, plastics and rubber, etc. into the water bodies. 3) Thermal pollution of water occurs when hot water from factories and thermal plants is drained into rivers and ponds before cooling. 4) Dumping of wastes specially glass, harmful chemicals, industrial effluents, packaging, salts and garbage renders the soil useless. 5) Rain water percolates to the soil carrying the pollutants to the ground and the ground water also gets contaminated. 6) Industrial and construction activities, machinery, factory equipment, generators, saws and pneumatic and electric drills also make a lot of noise. (Or any other relevant point) – Any two points 18.3 Poor people, cannot afford to protect themselves from the negative impacts of pollution, end up suffering the most. This also leads to social disparity/inequality due to the ill effects of poverty. (Can be explained with the help of an example)	(1+2+1=4)

24.	Features of federalism: 1. There are two or more levels (or tiers) of government. 2. Different tiers of government govern the same citizens, but each tier has its own jurisdiction in specific matters of legislation, taxation and administration. 3. The jurisdictions of the respective levels or tiers of government are specified in the constitution. So the existence and authority of each tier of government is constitutionally guaranteed. 4. The fundamental provisions of the constitution cannot be unilaterally changed by one level of government. Such changes require the consent of both the levels of government. 5. Courts have the power to interpret the constitution and the powers of different levels of government. The highest court acts as an umpire if disputes arise between different levels of government in the exercise of their respective powers. 6. Sources of revenue for each level of government are clearly specified to ensure its financial autonomy. 7. The federal system thus has dual objectives: to safeguard and promote unity of the country, while at the same time accommodate regional diversity. Therefore, two aspects are crucial for the institutions and practice of federalism. Governments at different levels should agree to some rules of power sharing. They should also trust that each would abide by its part of the agreement. An ideal federal system has both aspects: mutual trust and agreement to live together. (Any two point to be considered)	2
25.	1. Education – Literacy rate among women is only 54% as compared with 76% among men. Parents prefer to spend their resources for their sons' education rather than daughters. 2. Low Proportion of women in highly paid and valued jobs – Women still have a small share in the highly paid jobs. Even if a woman works for more hours than a man, her work is not given importance. This results in low paid and low valued jobs for women. 3. Women are paid less than men – Despite the Equal Wages of Act women are paid less than men, even when both do exactly the same work. 4. Preference for Son – In many parts of India parents prefer to have sons and find ways to have the girl child aborted before she is born. This has led to decline in child sex – ratio (927) 5. Exploitation at workplace and domestic violence – Women are exploited and harassed at the workplace. They have to face different forms of domestic violence at home. (Any 2 point to be considered)	2

26.	1. Democracies accommodate various social divisions. For example, Belgium has peacefully solved her ethnic problems and solved the differences. 2. All democracies usually develop a procedure to conduct competition, i.e. conduct elections, power-sharing, etc. This reduces the possibility of tensions, due to social divisions, turning violent or explosive. 3. Democracy teaches people to respect the differences and resolve conflicts among different groups peacefully. In non-democratic countries, rulers either turn a blind eye to or suppress internal differences. For example, Sri Lanka. The plus point in democratic regime is the ability to handle social differences, divisions and conflicts. 4. A democracy is not just a rule by majority opinion. The majority always needs to work with the minority so that the government represents the general view. 5. A democratic government ensures that the rule by the majority does not become autocratic in terms of religion, race or linguistic group etc. It tries to show that in every election, different persons and groups can form a majority. It tries to see that every citizen has a chance to be in majority at some point of time and is not barred on the basis of birth. All these things ensured by a democratic regime lead to a peaceful and harmonious life. (Any three points to be considered)	3
27A	Political parties play a significant role in the effective working of a democracy. To fill political offices and exercise political power, political parties are needed to perform a series of functions, which are the following 1. Parties contest elections. Elections are fought mainly among candidates put up by political parties. In India, top party leaders choose candidates for contesting elections. 2. Parties put forward different policies and programmes. Political parties in a democracy group together similar opinions, to provide a direction in which government policies can be formulated. 3. Parties make laws for a country. Laws are debated and passed in the legislature. 4. Parties that lose elections play the role of the opposition. Opposition parties voice their views by criticizing the government for its failure or wrong policies. 5. Parties shape public opinion. They raise and highlight issues and resolve people's problems. Many pressure groups are the extensions of political parties. 6. Parties provide people access to government machinery and welfare schemes. For an ordinary citizen it is easier to approach a local party leader than a government officer. (Any 5 points)	5
	OR	
27B	1. Most political parties do not practice open and transparent procedures for their functioning. So there are very few ways for an ordinary worker to rise to the top in a party. 2. Those who happen to be the leaders are in a position of unfair advantage as they favour people close to them or even their family members. 3. In many parties in India, we see a trend of dynastic succession. The top positions are always controlled by members of a particular family, which is unfair to other	

	members of the party, and bad for democracy. 4. This is so because people who do not have adequate experience or popular support come to occupy positions of power. 5. More than loyalty to party principles and policies, personal loyalty to the leader becomes more important. This tendency is seen all over the world, even in older democracies.	
28.	28.1- (a) To recognise Tamil as official language (b) Regional autonomy (c) Equality of opportunities in securing education and jobs. (Any one to be considered) 28.2- The Majoritarian Government in Sri Lanka created a distrust between Tamils and Sinhala communities which resulted in civil war. As a result, thousands of people of both communities were killed and many families were forced to leave the country as refugees. 28.3 1. The Constitution prescribed that the number of Dutch and French Any two speaking ministers shall be equal in the central government. Some special laws require the support of majority of members from each linguistic group. Thus, no single community can make decisions unilaterally. 2. Many powers of the central government have been given to state governments of the two regions of the country. The state governments are not subordinate to the Central Government. 3. Brussels has a separate government in which Dutch and French have equal representation. 4. Apart from the Central and the State Government, there is a third kind of Government. This 'community government' is elected by people belonging to one language community - Dutch, French and German - speaking - no matter where they live. This government has the power regarding cultural, educational and language - related issues. (Any two to be considered)	(1+1+2=4)

35.	Healthcare and Public Health: • Accessible and quality public healthcare, is fundamental for maintaining, a productive and healthy population. It reduces mortality rates, ensures the well-being of the workforce, and allows individuals to contribute meaningfully to the economy. Inadequate healthcare can result in a higher burden of disease, lower life expectancy, and economic inefficiencies. Education and Skill Development: • Public education systems are essential for providing equal learning opportunities to all citizens, regardless of socioeconomic status. A well-educated population leads to increased literacy rates, skill development, and innovation, all of which are crucial for economic growth, reducing inequality, and fostering social cohesion. Sanitation and Clean Water: • Proper sanitation and access to clean water are vital for maintaining public health and preventing diseases such as cholera and dysentery. These services significantly improve life expectancy, reduce healthcare costs, and increase productivity, especially in rural or underserved areas. Infrastructure Development: • Public infrastructure, including roads, transportation, and energy, supports the functioning of markets, businesses, and industries. It enhances connectivity, stimulates economic activities, and improves the quality of life for individuals by providing easy access to essential goods and services. 36.	- Higher cost of borrowing from informal sources means a larger part of the earnings of the borrowers is used to repay the loan. Hence, borrowers have less income left for themselves (as we saw for Shyamal in Sonpur). - In certain cases, the high interest rate for borrowing can mean that the amount to be repaid is greater than the income of the borrower. -This could lead to increasing debt (as we saw for Rama in Sonpur) and debt trap. -Also, people who might wish to start an enterprise by borrowing may not do so because of the high cost of borrowing. -For these reasons, banks and cooperative societies need to lend more. This would lead to higher incomes and many people could then borrow cheaply for a variety of needs. -They could grow crops, do business, set up small-scale industries etc. They could set up new industries or trade in goods. Cheap and affordable credit is crucial for	3

38A.	Working conditions of person M would have the following features: Regular Employment: Workers have assured, regular work with fixed terms of employment. Government Regulation: Enterprises are registered with the government and follow legal rules and regulations (e.g., Factories Act, Minimum Wages Act). Security of Employment: Workers enjoy job security with clear working hours and benefits. Overtime Compensation: If workers work beyond regular hours, they are paid overtime. Employee Benefits: Workers receive benefits like paid leave, holidays, provident fund, gratuity, and medical benefits. Safe Working Conditions: Employers are required to provide safe working environments (e.g., clean drinking water). Retirement Benefits: Workers are entitled to pensions after retirement. Formal Processes: The sector follows formal processes and procedures for employment. Working conditions of person N would have the following features: Irregular Employment: Jobs are low-paid and often irregular, with no guarantee of continuous work. Lack of Government Regulation: The sector operates largely outside government control, with few or no legal protections. No Employee Benefits: Workers do not receive benefits like paid leave, overtime pay, or medical benefits. Job Insecurity: Employment is not secure; workers can be dismissed without notice or reason. Seasonal Work: Employment is often dependent on seasons, and workers may be laid off during off-peak periods. Informal Jobs: Many workers are self-employed, doing small jobs like street vending or repair work. Dependence on Employer: Employment conditions are influenced by the employer's whims and needs. No Legal Protections: There is little enforcement of rules or regulations related to working conditions or benefits.	5

भारत में मुद्रण का आगमन: 1780 से, जेम्स ऑगस्टस हिककी ने बंगाल गजट का संपादन शुरू किया, जो एक साप्ताहिक पत्रिका थी और स्वयं को ‘सभी के लिए खुला, लेकिन किसी से प्रभावित नहीं’ एक व्यावसायिक पत्र बताती थी। इस प्रकार, औपनिवेशिक प्रभाव से अपनी स्वतंत्रता पर गर्व करने वाले एक निजी अंग्रेजी उद्यम ने

भारत में अंग्रेजी मुद्रण की शुरुआत की। हिक्की ने बहुत सारे विज्ञापन प्रकाशित किए, जिनमें दासों के आयात और बिक्री से संबंधित विज्ञापन भी शामिल थे। लेकिन उन्होंने भारत में कंपनी के वरिष्ठ अधिकारियों के बारे में बहुत सारी गपशप भी प्रकाशित की। इससे क्रोधित होकर गवर्नर-जनरल वारेन हेस्टिंग्स ने हिक्की पर अत्याचार किया और आधिकारिक रूप से स्वीकृत समाचार पत्रों के प्रकाशन को प्रोत्साहित किया, जो औपनिवेशिक सरकार की छवि को नुकसान पहुंचाने वाली सूचनाओं का मुकाबला कर सकें। अठारहवीं शताब्दी के अंत तक, कई समाचार पत्र और पत्रिकाएँ प्रकाशित होने लगीं। कुछ भारतीय भी थे जिन्होंने भारतीय समाचार पत्र प्रकाशित करना शुरू किया। सबसे पहले प्रकाशित होने वाला साप्ताहिक 'बंगाल गजट' था, जिसे राजा राममोहन रॉय के करीबी गंगाधर भट्टाचार्य ने प्रकाशित किया था।

- (i) जेम्स ऑगस्टस हिक्की द्वारा संपादित 'बंगाल गजट' किस भाषा में प्रकाशित होता था?
- (ii) जेम्स ऑगस्टस हिक्की पर अत्याचार क्यों किया गया?

Print Comes to India from 1780, James Augustus Hickey began to edit the Bengal Gazette, a weekly magazine that described itself as 'a commercial paper open to all, but influenced by none'. So it was a private English enterprise, proud of its independence from colonial influence, that began English printing in India. Hickey published a lot of advertisements, including those that related to the import and sale of slaves. But he also published a lot of gossip about the Company's senior officials in India. Enraged by this, Governor-General Warren Hastings persecuted Hickey and encouraged the publication of officially sanctioned newspapers that could counter the flow of information that damaged the image of the colonial government. By the close of the eighteenth century, a number of newspapers and journals appeared in print. There were Indians, too, who began to publish Indian newspapers. The first to appear was the weekly Bengal Gazette, brought out by Gangadhar Bhattacharya, who was close to Raja Rammohan Roy.

(8.1) In which language was 'Bengal Gazette' edited by James Augustus Hickey published?

(8.2) Why was James Augustus Hickey persecuted?

(8.3) Which newspapers were encouraged during the 1780s? Why were they encouraged?

18. दिए गए स्रोत को पढ़ें और निम्नलिखित प्रश्नों के उत्तर दें: [1+1+2=4 अंक]

संसाधनों का संरक्षण: संसाधन किसी भी विकासात्मक गतिविधि के लिए महत्वपूर्ण हैं। लेकिन संसाधनों का अविवेकी उपभोग और अत्यधिक उपयोग सामाजिक-आर्थिक और पर्यावरणीय समस्याओं को जन्म दे सकता है। इन समस्याओं से निपटने के लिए विभिन्न स्तरों पर संसाधन संरक्षण महत्वपूर्ण है। अतीत में नेताओं और विचारकों की यही प्रमुख चिंता रही है। उदाहरण के लिए, गांधीजी ने संसाधन संरक्षण के बारे में अपनी चिंता को इन शब्दों में बखूबी व्यक्त किया: “हर किसी की आवश्यकता के लिए पर्याप्त है, किसी के लालच के लिए नहीं।” उन्होंने वैश्विक स्तर पर संसाधन क्षय के मूल कारण के रूप में लालची और स्वार्थी व्यक्तियों और आधुनिक प्रौद्योगिकी के शोषणकारी स्वभाव को बताया। वे सामूहिक उत्पादन के विरोधी थे और इसे जन-उत्पादन से प्रतिस्थापित करना चाहते थे।

(18.1) ‘संसाधन नियोजन’ शब्द को परिभाषित कीजिए।

(18.2) संसाधन संरक्षण की आवश्यकता को स्पष्ट कीजिए।

(18.3) गांधीजी ने ऐसा क्यों कहा – “हर किसी की आवश्यकता के लिए पर्याप्त है, किसी के लालच के लिए नहीं?” किन्हीं दो कारणों का विश्लेषण कीजिए।

18. Read the given source and answer the questions that follow: [5 Marks]

Conservation of Resources: Resources are vital for any developmental activity. But irrational consumption and over-utilisation of resources may lead to socio-economic and environmental

problems. To overcome these problems, resource conservation at various levels is important. This had been the main concern of the leaders and thinkers in the past. For example, Gandhiji was very apt in voicing his concern about resource conservation in these words: "There is enough for everybody's need and not for anybody's greed." He placed the greedy and selfish individuals and the exploitative nature of modern technology as the root cause for resource depletion at the global level. He was against mass production and wanted to replace it with production by the masses.

(18.1) Define the term 'Resource Planning'.

(18.2) Explain the need for conservation of resources.

(18.3) Why did Gandhiji say – "There is enough for everybody's need and not for anybody's greed?" Analyse any two reasons.

28. दिए गए पैराग्राफ को पढ़ें और निम्नलिखित प्रश्नों के उत्तर दें: [1+1+2=4]

कई समाजों में लंबे समय तक महिलाओं को समान अधिकारों से वंचित रखा गया। उनसे केवल घरेलू कार्यों तक ही सीमित रहने की अपेक्षा की जाती थी और उन्हें शिक्षा, रोजगार या राजनीति में भाग लेने के लिए प्रोत्साहित नहीं किया जाता था। वर्षों से, नारीवादी आंदोलनों ने महिलाओं के लिए समान अधिकारों और अवसरों की मांग की है। भारत में, स्वतंत्रता के तुरंत बाद महिलाओं को मतदान का अधिकार मिल गया, लेकिन संसद और राज्य विधानसभाओं में उनका प्रतिनिधित्व अभी भी कम है। राजनीति में महिलाओं की भागीदारी बढ़ाने के लिए, पंचायतों और नगरपालिकाओं जैसे स्थानीय सरकारी निकायों में एक तिहाई आरक्षण प्रदान किया गया है। कई लोग लोकसभा और राज्य विधानसभाओं में भी महिलाओं के लिए आरक्षण की मांग करते हैं। सार्वजनिक जीवन में महिलाओं की समान भागीदारी एक स्वस्थ लोकतंत्र के लिए आवश्यक मानी जाती है क्योंकि महिलाएं लगभग आधी आबादी हैं और निर्णय लेने में उनके हितों और समस्याओं का भी प्रतिनिधित्व होना चाहिए।

प्रश्न:

(28.1) नारीवादी आंदोलन से क्या तात्पर्य है?

(28.2) राजनीति में महिलाओं की भागीदारी क्यों महत्वपूर्ण है?

(28.3) स्थानीय सरकार में महिलाओं के प्रतिनिधित्व को बेहतर बनाने के लिए भारत ने क्या कदम उठाए हैं?

28. Read the given text and answer the following questions: [1 + 1 + 2 = 4]

In many societies, women were denied equal rights for a long time. They were expected to perform only household duties and were not encouraged to participate in education, jobs, or politics. Over the years, feminist movements demanded equal rights and opportunities for women. In India, women got voting rights soon after independence, but their representation in Parliament and State Assemblies remains low. To improve women's participation in politics, one-third reservation has been provided in local government bodies such as Panchayats and Municipalities. Many people also demand reservation for women in the Lok Sabha and State Assemblies. Equal participation of women in public life is considered necessary for a healthy democracy because women form nearly half of the population and their interests and problems should also be represented in decision-making.

Questions:

(28.1) What is meant by feminist movement?

(28.2) Why is women's participation in politics important?

(28.3) What step has India taken to improve women's representation in local government?

8. यह आंदोलन शहरों में मध्यम वर्ग की भागीदारी से शुरू हुआ। हजारों छात्रों ने सरकारी स्कूल और कॉलेज छोड़ दिए, प्रधानाध्यापकों और शिक्षकों ने इस्तीफा दे दिया, और वकीलों ने अपनी वकालत छोड़ दी। मद्रास को छोड़कर अधिकांश प्रांतों में परिषद के चुनावों का बहिष्कार किया गया, जहाँ गैर-ब्राह्मणों की पार्टी, जस्टिस पार्टी, ने महसूस किया कि परिषद में प्रवेश करना कुछ शक्ति प्राप्त करने का एक तरीका था, जिस तक आमतौर पर केवल ब्राह्मणों की ही पहुँच थी। आर्थिक मोर्चे पर असहयोग आंदोलन के प्रभाव अधिक नाटकीय थे। विदेशी वस्तुओं का बहिष्कार किया गया, शराब की दुकानों पर धरना दिया गया और विदेशी कपड़ों को विशाल अलाव में जलाया गया। 1921 और 1922 के बीच विदेशी कपड़े का आयात आधा हो गया, इसका मूल्य 102 करोड़ रुपये से घटकर 57 करोड़ रुपये हो गया। कई जगहों पर व्यापारियों और कारोबारियों ने विदेशी वस्तुओं का व्यापार करने या विदेशी व्यापार को वित्तपोषित करने से इनकार कर दिया। जैसे-जैसे बहिष्कार आंदोलन फैला, और लोगों ने आयातित कपड़े त्यागना शुरू कर दिया और केवल भारतीय कपड़े पहनने लगे, भारतीय कपड़ा मिलों और हथकरघों का उत्पादन बढ़ गया।

(क) परिषद चुनावों के बहिष्कार में जस्टिस पार्टी की भूमिका की व्याख्या कीजिए। [1]

The movement started with the participation of the middle-class in the cities. Thousands of students left government-controlled schools and colleges, headmasters and teachers resigned, and lawyers gave up their legal practices. The council elections were boycotted in most provinces except Madras, where the Justice Party, the party of the non-Brahmans, felt that entering the council was one way of gaining some power something that usually only Brahmas had access to. The effects of Non-cooperation movement on the economic front were more dramatic. Foreign goods were boycotted, liquor shops picketed, and foreign cloth burnt in huge bonfires. The import of foreign cloth halved between 1921 and 1922, its value dropping from Rs. 102 crores to Rs. 57 crores. In many places merchants and traders refused to trade in foreign goods or finance foreign trade. As the boycott movement spread, and people began discarding imported clothes

and wearing only Indian ones, production of Indian textile mills and handlooms went up.

- (a) Explain the role of the Justice Party in boycotting council elections. [1]
(b) How were the effects of 'Non-cooperation movement on the economic front' dramatic? [1]
(c) Explain the effect of the 'boycott' movement on 'foreign textile trade'. [2]

18. स्वतंत्रता के बाद भारत में गहन औद्योगीकरण और शहरीकरण हुआ, जिसने हमारे लिए अपार अवसर पैदा किए। आज, बड़े औद्योगिक घराने उतने ही आम हैं जितने कई बहुराष्ट्रीय कंपनियों (एमएनसी) की औद्योगिक इकाइयाँ। उद्योगों की लगातार बढ़ती संख्या ने मौजूदा मीठे पानी के संसाधनों पर दबाव डालकर स्थिति को और बदतर बना दिया है। उद्योगों को पानी के भारी उपयोगकर्ता होने के अलावा, उन्हें चलाने के लिए बिजली की भी आवश्यकता होती है। इस ऊर्जा का अधिकांश भाग जल विद्युत से आता है। इसके अलावा, बड़ी और घनी आबादी और शहरी जीवनशैली वाले शहरी केंद्रों की संख्या में वृद्धि ने न केवल पानी और ऊर्जा की आवश्यकताओं को बढ़ाया है, बल्कि समस्या को और भी बढ़ा दिया है। यदि आप शहरों में

हाउसिंग सोसाइटियों या कॉलोनियों पर गौर करें, तो आप पाएंगे कि इनमें से अधिकांश के पास अपनी पानी की जरूरतों को पूरा करने के लिए अपने स्वयं के भूजल पंपिंग उपकरण हैं। आश्चर्य की बात नहीं है कि हम पाते हैं कि नाजुक जल संसाधनों का अत्यधिक दोहन किया जा रहा है और इनमें से कई शहरों में इनके क्षरण का कारण बन रहा है

- I. औद्योगिक घरानों और बहुराष्ट्रीय कंपनियों के औद्योगिक इकाइयों का भारत में क्या महत्व है?
- II. बढ़ते उद्योगों ने मीठे पानी के संसाधनों पर किस प्रकार का प्रभाव डाला है?
- III. उद्योगों को जलविद्युत से मिलने वाली बिजली की आवश्यकता क्यों होती है?

Post-independent India witnessed intensive industrialization and urbanisation, creating vast opportunities for us. Today, large industrial houses are as commonplace as the industrial units of many MNCs (Multinational Corporations). The ever-increasing number of industries has made matters worse by exerting pressure on existing freshwater resources. Industries, apart from being heavy users of water, also require power to run them. Much of this energy comes from hydroelectric power. Moreover, multiplying urban centers with large and dense populations and urban lifestyles have not only added to water and energy requirements but have further aggravated the problem. If you look into the housing societies or colonies in the cities, you would find that most of these have their own groundwater pumping devices to meet their water needs. Not surprisingly, we find that fragile water resources are being over-exploited and have caused their depletion in several of these cities

I.	What is the significance of industrial houses and multinational companies' industrial units in India?	1
I.	How has the increase in industries affected the freshwater resources?	1
II.	Why do industries require electricity largely generated from hydropower?	2

27 B. How does democracy protect the dignity and freedom of citizens? Explain.

28. राजनीति में जाति विभिन्न प्रकार की भूमिकाएँ निभाती है। कुछ स्थितियों में, राजनीति में जातिगत मतभेदों की अभिव्यक्ति कई वंचित समुदायों को सत्ता में अपनी हिस्सेदारी की माँग करने का अवसर प्रदान करती है। इस अर्थ में, जातिगत राजनीति ने दलितों और अन्य पिछड़ा वर्ग (ओबीसी) के लोगों को निर्णय लेने में बेहतर पहुँच प्रदान की है। कई राजनीतिक और गैर-राजनीतिक संगठन विशेष जातियों के विरुद्ध भेदभाव को समाप्त करने, अधिक सम्मान और भूमि, संसाधनों और अवसरों तक अधिक पहुँच की माँग और आंदोलन कर रहे हैं। साथ ही, जाति पर विशेष ध्यान देने से नकारात्मक परिणाम भी हो सकते हैं। धर्म की तरह, केवल जातिगत पहचान पर आधारित राजनीति लोकतंत्र में बहुत स्वस्थ नहीं है। यह गरीबी, विकास और भ्रष्टाचार जैसे अन्य ज्वलंत मुद्दों से ध्यान भटका सकती है। कुछ मामलों में, जातिगत विभाजन तनाव, संघर्ष और यहाँ तक कि हिंसा का कारण भी बनता है।

I. राजनीति में जाति पर विशेष ध्यान देना लोकतंत्र में अस्वस्थ क्यों माना जा सकता है?

1

II. केवल जातिगत पहचान पर आधारित राजनीति गरीबी और भ्रष्टाचार जैसे अन्य महत्वपूर्ण मुद्दों से ध्यान कैसे भटका सकती है? 1

III. भारतीय समाज पर जातिगत राजनीति के सकारात्मक और नकारात्मक प्रभावों की तुलना और अंतर स्पष्ट कीजिए।

28.Caste plays different kinds of roles in politics. In some situations, expression of caste differences in politics gives many disadvantaged communities the space to demand their share of power. In this sense, caste politics has helped people from Dalits and OBC castes to gain better access to decision making. Several political and non-political organizations have been demanding and agitating for an end to discrimination against particular castes, for more dignity and more access to land, resources and opportunities. At the same time, exclusive attention to caste can produce negative results as well. As in the case of religion, politics based on caste identity alone is not very healthy in a democracy. It can divert attention from other pressing issues like poverty, development and corruption. In some cases, caste division leads to tensions, conflict and even violence.

I. Why can a strong focus on caste in politics be considered unhealthy in a democracy? 1

II. How can politics based solely on caste identity distract attention from other important issues such as poverty and corruption?

1

III. Compare and contrast the positive and negative impacts of caste politics on Indian society.

8.	Read the given text and answer the following questions: (1+1+2= 4) दिए गए पाठ को पढ़कर निम्नलिखित प्रश्नों के उत्तर दें: By the early nineteenth century, printing presses had spread across many Indian towns. In Calcutta, Bombay and Madras, new presses were established by merchants, missionaries and local entrepreneurs. A variety of books, religious texts, almanacs and works of literature became available at affordable prices. Many Indians began to realise that printed material could reach far beyond their immediate communities and could create a shared world of ideas. Vernacular newspapers also emerged, discussing social customs, religious practices and colonial policies. One editor wrote in 1872: "The power of print lies in its ability to enlighten minds. When people read widely, they question blind traditions, demand justice and become aware of their rights. A printed page can travel to places where even political leaders may not reach." Social reformers used print to spread new ideas on widow remarriage, caste inequality and women's education. At the same time, censorship laws were passed by colonial officials who feared that print could provoke opposition. Yet, the public demand for books and journals only increased in the following decades. उन्नीसवीं सदी की शुरुआत तक भारत के कई शहरों में छापाखाने स्थापित हो चुके थे। कलकत्ता, बंबई और

18	India's growing demand for infrastructure, transportation, and manufacturing has significantly increased the extraction of minerals such as coal, bauxite, iron ore, and limestone. However, excessive mining has led to land degradation, groundwater contamination, and displacement of rural communities. In states like Jharkhand and Odisha, open-cast mining has created large pits that remain unused and filled with contaminated water. Dust and toxic emissions from mining affect nearby agricultural fields, reducing crop yield. Coal-based thermal power plants, while essential for electricity generation, are major contributors to air pollution and greenhouse gas emissions. Despite these challenges, minerals remain crucial for India's industrial growth and employment generation. Experts suggest that adopting eco-friendly mining technologies, investing in renewable energy, and enforcing strict environmental regulations are necessary to balance economic development with ecological protection. भारत में आधारभूत संरचना, परिवहन और विनिर्माण की बढ़ती मांग ने कोयला, बॉक्साइट, लौह अयस्क और चूना पत्थर जैसे खनिजों के उत्खनन को काफी बढ़ा दिया है। लेकिन अत्यधिक खनन के कारण भूमि क्षरण, भूजल प्रदूषण और ग्रामीण समुदायों के विस्थापन जैसी समस्याएँ उत्पन्न हुई हैं। झारखंड और ओडिशा जैसे राज्यों में खुली खदानों ने बड़े-बड़े गड्ढे बना दिए हैं, जिनमें बाद में प्रदूषित पानी भर जाता है और उनका उपयोग नहीं हो पाता। खनन से निकलने वाली धूल और विषैले उत्सर्जन आसपास के कृषि क्षेत्रों को प्रभावित करते हैं, जिससे फसल उत्पादन घटता है। कोयला-आधारित ताप विद्युत संयंत्र बिजली उत्पादन के लिए आवश्यक हैं, लेकिन वे वायु प्रदूषण और ग्रीनहाउस गैस उत्सर्जन के प्रमुख स्रोत हैं। इन चुनौतियों के बावजूद, खनिज भारत के औद्योगिक विकास और रोजगार सृजन के लिए अत्यंत महत्वपूर्ण हैं। विशेषज्ञों का मानना है कि पर्यावरण-अनुकूल खनन तकनीक अपनाना, नवीकरणीय ऊर्जा में निवेश करना और कठोर पर्यावरणीय नियम लागू करना आर्थिक विकास और पारिस्थितिक संरक्षण के बीच संतुलन बनाए रखने के लिए आवश्यक है।

28	Read the given text and answer the following questions: दिए गए पाठ को पढ़कर निम्नलिखित प्रश्नों के उत्तर दें: (1+1+2=4) All this is well known. Yet issues related to women’s well being or otherwise are not given adequate attention. This has led many feminists and women’s movements to the conclusion that unless women control power, their problems will not get adequate attention. One way to ensure this is to have more women as elected representatives. In India, the proportion of women in legislature has been very low. For example, the percentage of elected women members in Lok Sabha has touched 14.36 per cent of its total strength for the first time in 2019. Their share in the state assemblies is less than 5 per cent. In this respect, India is among the bottom group of																

	nations in the world. India is behind the averages for several developing countries of Africa and Latin America. In the government, cabinets are largely all-male even when a woman becomes the Chief Minister or the Prime Minister. यह कोई छुपी हुई बात नहीं है की औरतों की भलाई या उनके साथ समान व्यवहार वाले मुद्दों पर पर्याप्त ध्यान नहीं दिया जाता। इसी के चलते विभिन्न नारीवादी समूह और महिला आंदोलन इस निष्कर्ष पर पहुंचे हैं कि जब तक औरतों का सत्ता पर नियंत्रण नहीं होगा तब तक इस समस्या का निपटारा नहीं हो सकता इस लक्ष्य को हासिल करने का एक तरीका यह है कि जनता द्वारा चुने हुए प्रतिनिधियों में महिलाओं की हिस्सेदारी बढ़ाई जाए। भारत की विधायिका में महिला प्रतिनिधियों का अनुपात बहुत ही कम है। जैसे लोकसभा में महिला सांसदों की संख्या पहली बार 2019 में ही 14.36 फीसदी तक पहुंच सकी है राज्यों की विधानसभाओं में उनका प्रतिनिधित्व पांच प्रतिशत से भी कम है इस मामले में भारत का नंबर दुनिया के देशों में काफी नीचे है। भारत इस मामले में अफ्रीका और लैटिन अमेरिका के कई विकासशील देशों से भी पीछे है, कभी कभार कोई महिला प्रधानमंत्री या मुख्यमंत्री की कुर्सी तक आ गई है पर मंत्रिमंडल में पुरुषों का ही वर्चस्व रहा है
